

Proportion of the population aged 15-35 years

Tanzania National Youth Policy defines the Youth as persons aged 15 to 35 years. According to the 2012 PHC the proportion of persons aged 15-35 years has decreased marginally from 35.6 percent in 2002 to 34.7 percent in 2012. The same pattern is observed in Tanzania Mainland. However, for Tanzania Zanzibar the proportion has remained the same (36.2 percent) both in 2002 and 2012. The proportion of persons aged 15-35 years varies substantially among regions. The highest proportion was recorded in Dar es Salaam (46.8 percent), followed by Mjini Magharibi (39.4 percent). The lowest proportion was recorded in Singida (30.7 percent).
