

Proportion of private households that own powertiller

Power tiller is still new to most farmers. Less than one percent of households in Tanzania own power tillers (0.7 percent). Six regions only had one or more than one percent of households which owned power tillers. Such regions were Manyara (1.2 percent), Mara and Arusha (1.1 percent each), Kilimanjaro, Dodoma and Mbeya (1.0 percent each). All regions in Tanzania Zanzibar, Dar es Salaam, Kagera and Kigoma recorded the lowest proportion of households that owned power tillers.
