1.0 Introduction

This report presents Quarterly Gross Domestic Product (QGDP) at current and constant prices base year 2015 for Tanzania Mainland. The QGDP estimates facilitate frequent and appropriate policy interventions by providing reliable and timely reports on recent short-term economic developments.

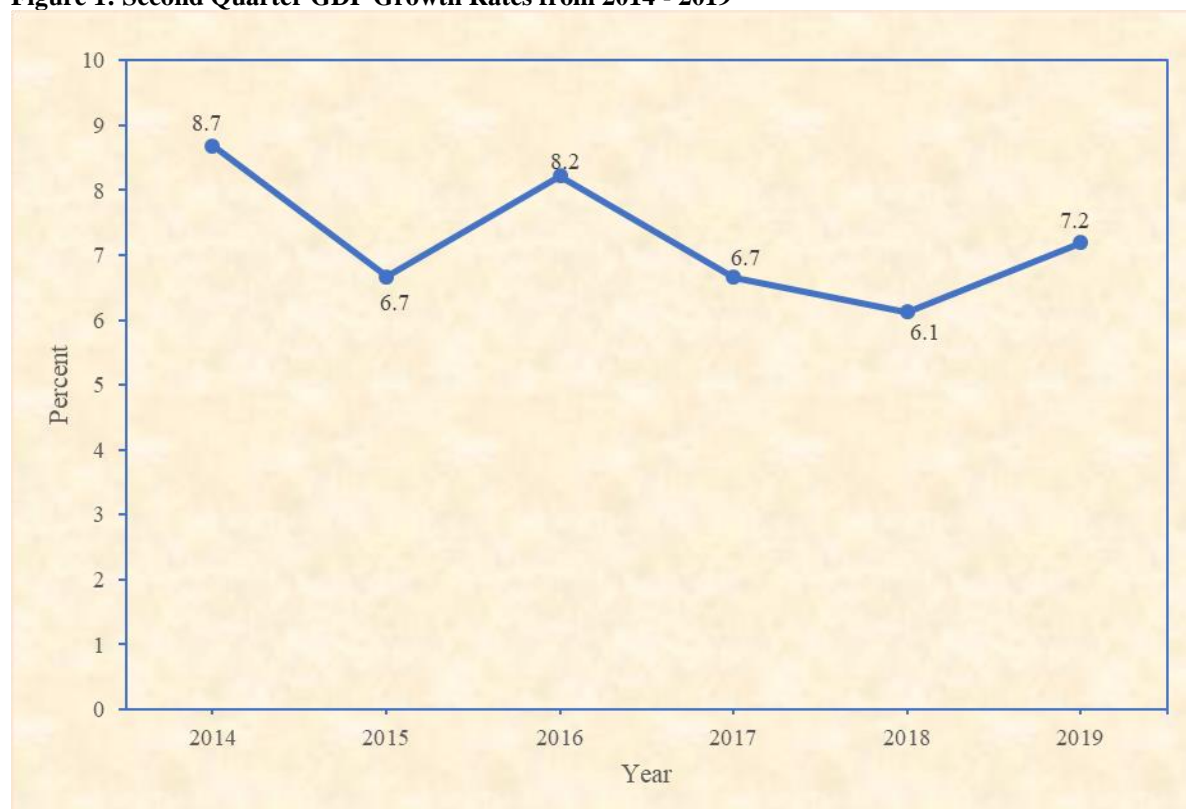

Data used in the compilation of the second quarter (April – June) GDP for the year 2019 were collected from all economic activities in the economy. The compilation follows the United Nation System of National Accounts 2008 (SNA 2008).

Currently, the National Bureau of Statistics is implementing the National Accounts Revision Policy which became operational in early 2019. The policy allows publication of provisional results which are subject to revision depending on the availability of new or revised quarterly and annual data.

1.1. Key Findings

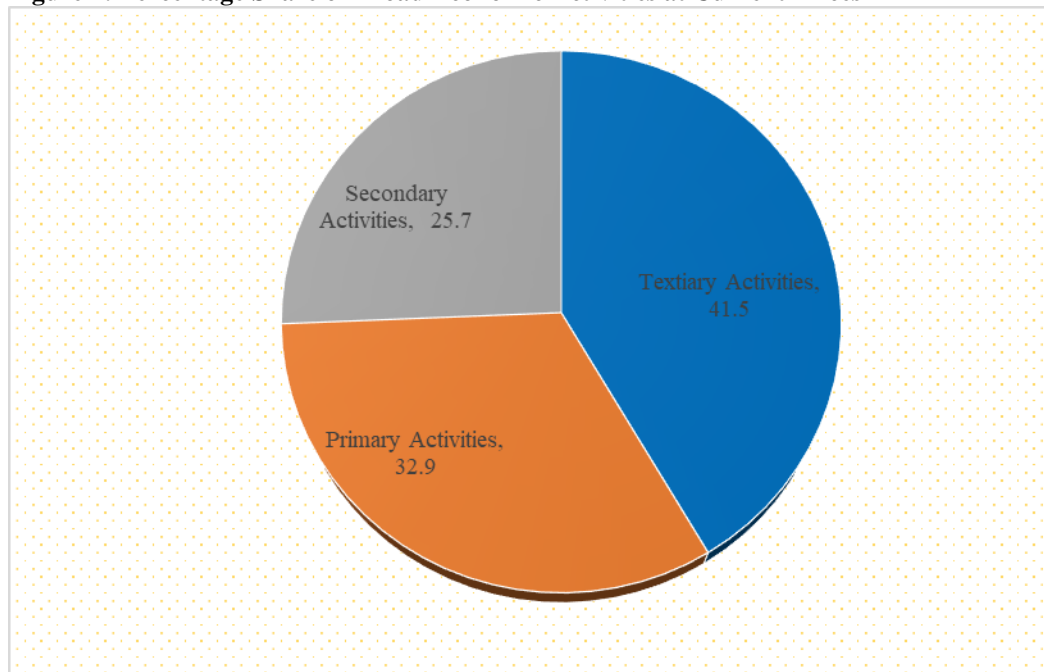

During the second quarter of 2019, the value of QGDP in absolute terms at current prices was TZS 34,975,992 million compared to TZS 32,305,409 million in the similar quarter of 2018. Further, the value of QGDP at constant prices increased to TZS 30,694,320 million in the second quarter of 2019 from TZS 28,625,492 million in the corresponding quarter of the year 2018 equivalent to a growth of 7.2 percent.

Figure 1: Second Quarter GDP Growth Rates from 2014 - 2019

In accordance with the Broad Economic Activity, During the period the largest share¹ to GDP was from Tertiary activities which accounted to 41.5 percent, followed by Primary activities by 32.9 percent and Secondary activities had the least share of 25.7 percent, before adjustment for taxes.

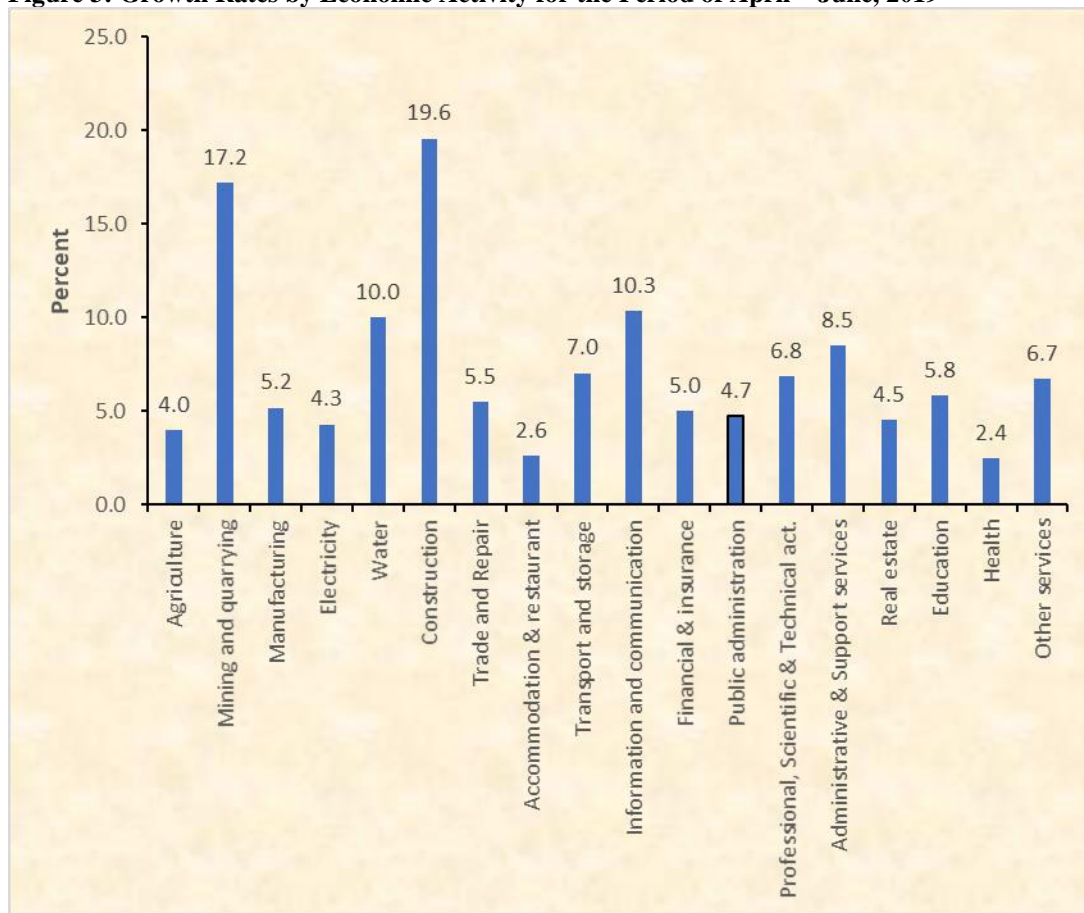

Figure 2: Percentage Share of Broad Economic Activities at Current Prices

Furthermore, Construction activity recorded the highest growth of 19.6 percent followed by Mining and quarrying (17.2 percent) and information and communication (10.3 percent).

¹ Shares are computed at current prices before adjustment for taxes

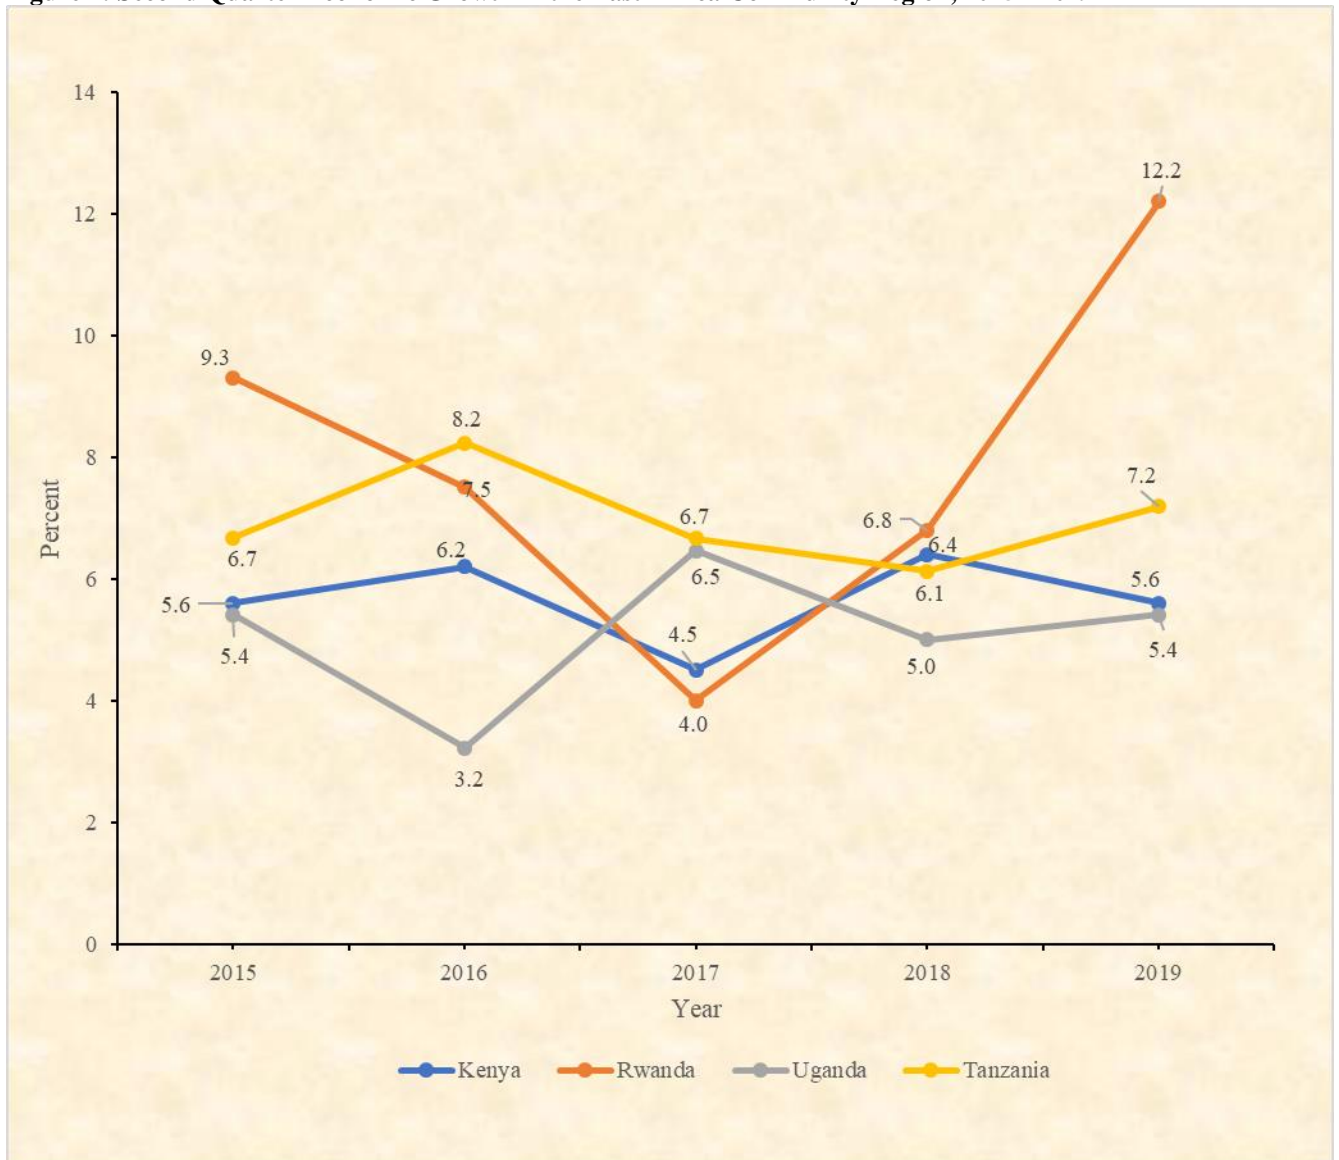

Figure 3: Growth Rates by Economic Activity for the Period of April – June, 2019

1.2. Economic Growth in the East Africa Region

The economic performance in the East Africa Region during the reference period in 2019 showed that, Rwanda’s economy expanded by 12.2 percent compared to 6.8 percent in 2018 an increase by 5.4 percentage points. Uganda’s economy recorded a growth rate of 5.4 percent compared to a growth rate of 5.0 percent in 2018 an increase of 1.3 percentage points. Kenya grew by 5.6 in the second quarter of 2019 compared to a growth rate of 6.4 percent recorded in the second quarter of 2018 a slowdown of 0.8 percentage points. During the period, most of the EAC countries that have already released the second quarter GDP reports recorded higher growth rates compared to the quarter of 2018 except for Kenya which recorded a lower growth rate. GDP estimates for Burundi and South Sudan have not been released.

Figure 4: Second Quarter Economic Growth in the East Africa Community Region, 2015 - 2019

2.0 Sectoral Performance

2.1 Agriculture, Forestry and Fishing

This activity includes the exploitation of vegetable and animal natural resources that comprise of growing of crops, raising and breeding of animals, harvesting of timber and other plants, animals or animal products from a farm or their natural habitats.

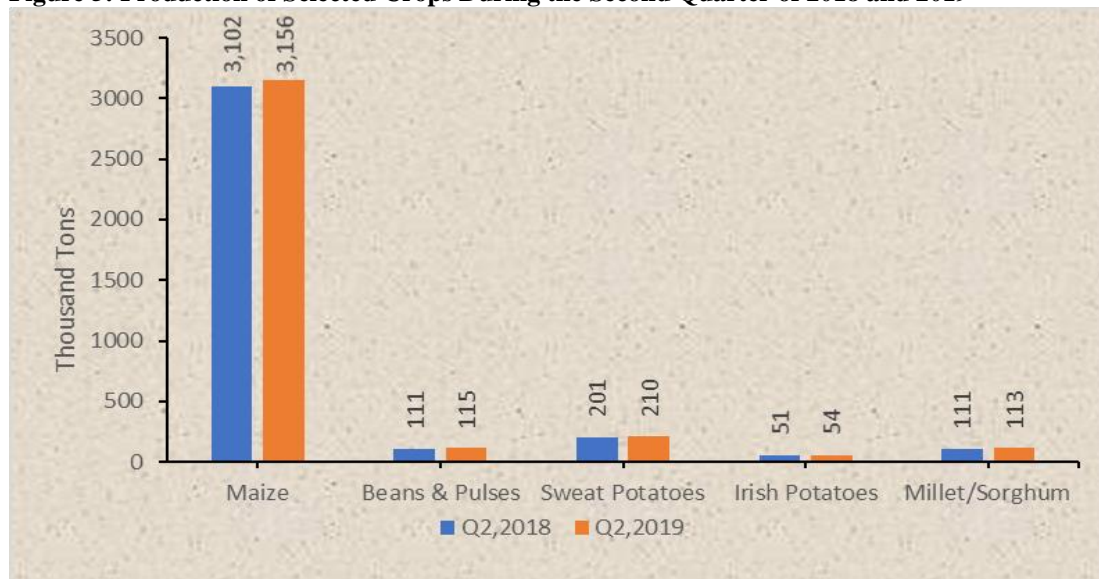

2.1.1 Crops

The major crops covered include maize, paddy, sorghum/millet, other cereals, cassava, round potatoes, sweet potatoes, other roots and tubers, beans and other pulses, dried oil seeds, other vegetables, bananas, other fruits, cashew nuts, coffee, cotton, tea, tobacco and other food and cash crops.

Crop production increased at a rate of 4.2 percent in the second quarter of 2019 compared to 6.0 percent of the corresponding quarter of 2018. The increase in

growth rate was attributed to favorable rainfall received in areas of the production during the onset of short rain season.

Figure 5: Production of Selected Crops During the Second Quarter of 2018 and 2019

Major crops which accounted to such increase include maize which increased by 1.8 percent from 3.102 million tons in the second quarter of 2018 to 3.156 million tons in the similar quarter of 2019. Sweet potatoes harvested increased by 4.1 percent from 201 thousand tons in the second quarter of 2018 to 210 thousand tons in the second quarter of 2019. Beans & Pulses increased by 3.8 percent from 111 thousand tons in 2018 to 115 thousand tons in the similar quarter of 2019. Irish Potatoes increased by 4.8 percent from 51 thousand tons in 2018 to 54 thousand tons in the similar quarter of 2018. Sorghum/millet increased by 1.0 percent from 111 thousand tons in 2018 to 113 thousand tons in the similar quarter of 2019.

2.1.2 Livestock

The activity covers activities of rearing improved and indigenous cattle; goats; sheep; donkeys and horses; guinea pigs and rabbits; indigenous and commercial chicken; and other poultry.

Livestock activity registered a growth rate of 5.0 percent in the second quarter of 2019 compared to 5.0 percent in the second quarter of 2018. The growth rate was attributed to the demand for livestock-based products that increased significantly due to an increase in per capita income, urbanization, taste and preference as well as increased awareness on food and nutrition.

2.1.3 Forestry and Logging

The activity covers production of timber, charcoal, fuel wood and Logs, twigs, faggots (bundle of branches) and non-wood forest products.

Forestry activity recorded a growth rate of 6.0 percent in the second quarter of 2019 compared to 4.6 percent registered in the similar quarter of 2018. The growth was attributed to the government intervention to ensure sustainable harvest of forest products.

2.1.4 Fishing

The fishing activity covers the harvest of fishery resources from marine or freshwater environments, with the goal of capturing fish, crustaceans and other marine products.

The activity recorded a negative growth of 3.5 percent in the second quarter of 2019 compared to a growth rate of 12.8 percent registered in the corresponding quarter of 2018. The growth rate was caused by a decrease in fish catch during the reference period.

2.2 Mining and Quarrying

Mining and quarrying include the activities of extraction of minerals occurring naturally as solids (coal and ores), liquids (petroleum) or gases (natural gas). Extraction done can be from underground, on the surface or in a well operation. It also includes supplementary activities aimed at preparing the crude materials for marketing, for example, crushing, and grinding, cleaning, drying, sorting, concentrating ores, liquefaction of natural gas and agglomeration of solid fuels. The operations are often accomplished by the units which extract the resource and/or other located nearby.

Mining and quarrying activity is divided into four industries which are:

- 1) Mining of coal and lignite and extraction of peat;
- 2) Crude petroleum and natural gas;
- 3) Mining of metal ores; and
- 4) Other mining and quarrying

The activity recorded a growth rate of 17.2 percent in second quarter of 2019 compared to a growth rate of 6.8 percent recorded during the similar quarter of 2018. The growth was mainly due to an increase in production of gold, coal, and Diamond. During the period under review, Gold production increased to 10,683 kg in the second quarter of 2019 from 9,539 kg in the corresponding quarter of 2018. Production of coal increased to 181,236 tons in the second quarter of 2019 from 160,367 tons in the similar quarter of 2018.

Table 1: Second Quarter Minerals Production 2015 – 2019

Mineral	Unit	2015	2016	2017	2018	2019
Coal	Tons	83,425	64,291	128,685	160,367	181,236
Diamond	Carrat	52,928	58,068	65,076	81,860	97,601
Gold	Kg	10,682	11,577	9,889	9,539	10,683
Salt	Tons	15,938	20,827	27,157	44,296	30,268
Silver	Kg	3,827	4,873	2,331	2,926	3,358
Natural Gas	Mscf	7,793	11,310	11,150	13,629	14,087

2.3 Manufacturing

Manufacturing activity involves physical or chemical transformation of materials, substances, or components into final or semi processed goods. The materials include products of agriculture, forestry, fishing, mining and quarrying as well as products of other manufacturing activities.

The activity recorded a growth of 5.2 percent in the second quarter of 2019 compared to 3.6 percent in the similar quarter of the year 2018. The growth rate was attributed to an increase in the production of industrial goods in general.

2.4 Electricity, gas, steam and air conditioning supply

The activity covers provision of electric power and natural gas, through a permanent infrastructure (network) of lines, mains, and pipes. Specifically, the activity involves generation of electricity mainly from hydro, thermal and gas sources. It also includes electricity transmission and distribution activities. The main sources of data are the power generation companies.

During the reference quarter, the activity recorded a growth rate of 4.3 percent compared to a growth of 6.8 percent recorded in the corresponding quarter of 2018.

2.5 Water Supply and Sewerage

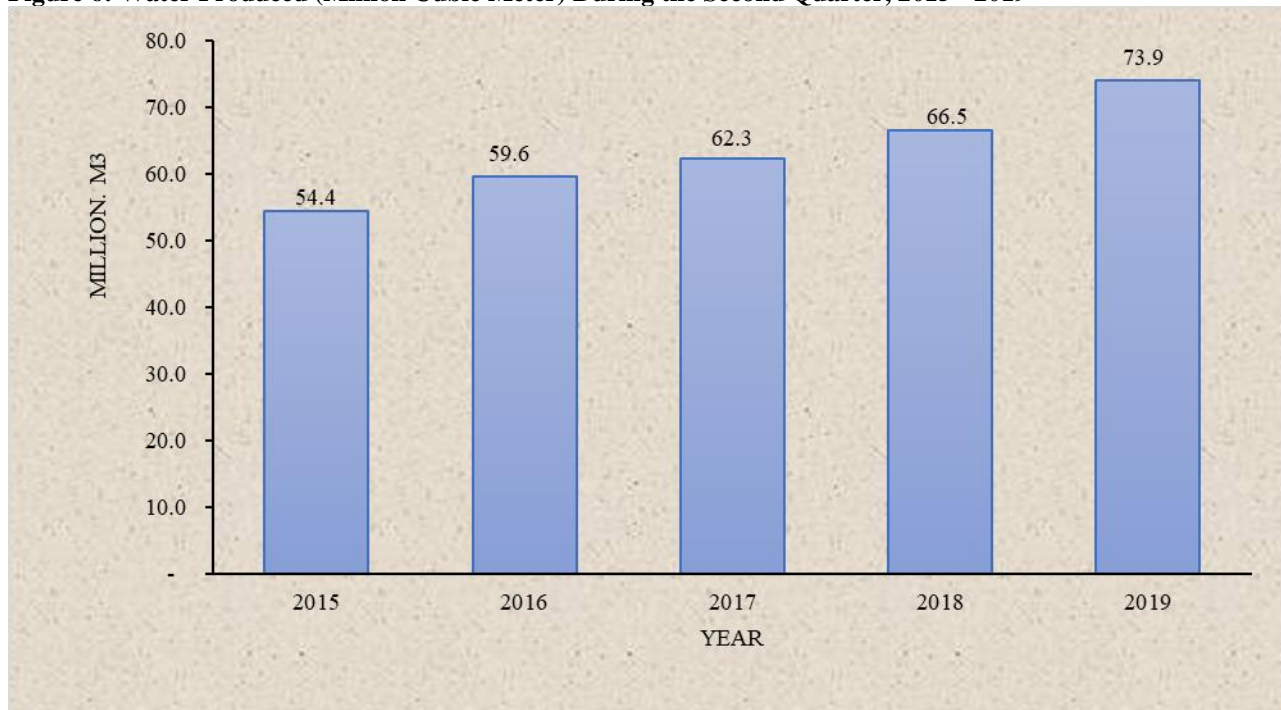

The activity includes collection and purification of water for water supply purposes, desalting of sea water to produce water as the principal product of interest and collection of water directly from wells for use by water supply companies or used on own account in agriculture or households. It also includes water distribution activities.

The indicator of growth of water supply activity is the quantity of water produced. During the period April – June 2019, the quantity of water produced increased to

73.9 million cubic meters from 66.5 million cubic meters recorded in the similar quarter of 2018.

During the quarter under review, the activity grew at a rate of 10.0 percent in 2019 compared to 6.1 percent in the similar quarter of 2018. The growth was attributed to among others improvement in water production infrastructure, increased capacity and production to match the water demand resulted from population increase in urban areas.

Figure 6: Water Produced (Million Cubic Meter) During the Second Quarter, 2015 - 2019

2.6 Construction

This activity includes general construction and specialized construction activities for buildings and civil engineering works. It includes new work, repair, additions and alterations, erection of prefabricated buildings or structures on the site and construction of a temporary nature.

General construction is the construction of entire dwellings, office buildings, stores and other public and utility buildings, farm buildings etc., it also includes construction in civil engineering works such as motorways, streets, bridges, tunnels, railways, airfields, harbours and water projects, irrigation systems, sewerage systems, industrial facilities, pipelines and electric lines, sports facilities etc.

The activity recorded a growth rate of 19.6 percent in the second quarter of 2019, compared to 5.2 percent in the corresponding quarter of 2018. The growth was

attributed to an increase in local production of construction materials like cement, iron and steels that are proxy of construction activity.

2.7 Wholesale and Retail Trade; Repair of Motor Vehicles, Motorcycles and Personal and Household Goods

The activity includes wholesale and retail sale (sale without transformation) of any type of goods, as well as rendering services incidental to the sale of merchandise. It also includes repair of motor vehicles and installation and repair of personal and household goods. The activity also involves buying and selling of goods.

The activity recorded a growth rate of 5.5 percent in the second quarter of 2019 compared to a growth rate of 4.0 percent observed in the similar quarter of 2018. The growth was attributed to an increase in traded goods specifically agriculture products and manufactured goods.

2.8 Transport and Storage

This activity includes the provision of passenger or freight transport, whether scheduled or not, by rail, pipeline, road, water or air and associated activities such as cargo handling, storage etc. The activity also includes renting of transport equipment with driver or operator and postal and courier activities.

Transport and storage activities increased at the rate of 7.0 percent in the second quarter of 2019 compared to 13.5 percent in the second quarter of 2018. The growth rate was attributed to an increase in number of passengers carried and freight handled during the period under review.

2.9 Accommodation and Food Services

This activity includes the provision of short-stay accommodation for visitors and other travelers and the provision of complete meals and drinks fit for immediate consumption. The amount and type of supplementary services provided within this section can vary widely.

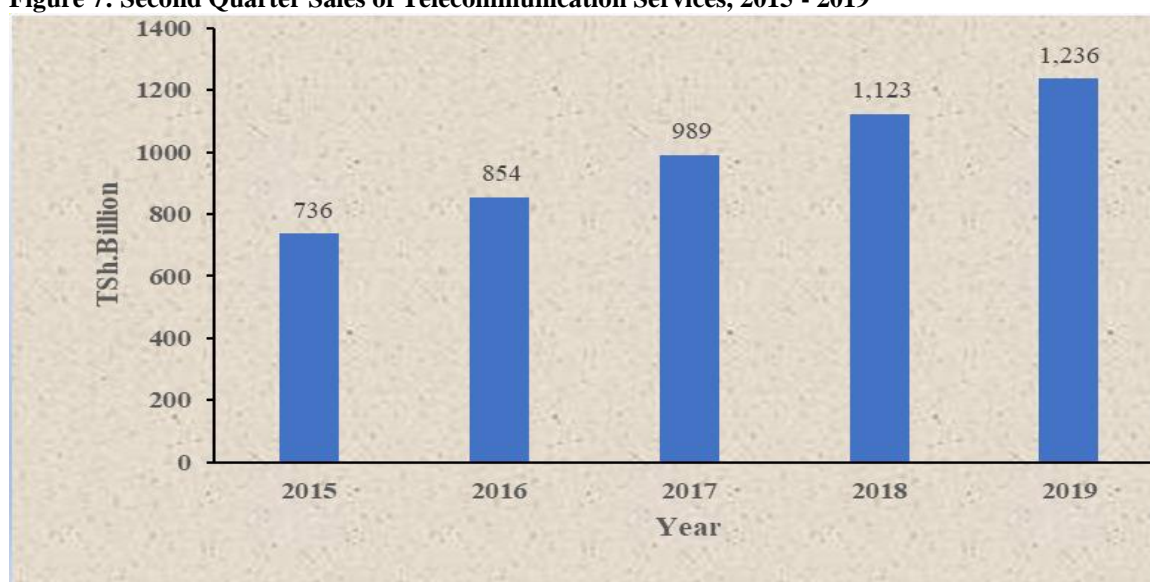

Accommodation and food services grew at the rate of 2.6 percent in the second quarter of 2019 compared to a growth rate of 6.7 percent in the second quarter of 2018. This slowdown in growth was due to a decrease in number of tourist arrivals and slight increase of bed occupancy. The number of tourist arrivals was 313,755 in the second quarter of 2019 compared to 319,065 in the similar quarter of 2018.

2.10 Information and Communication

The activity covers publishing activities, motion picture, video and television programming production, sound recording and music publishing, programming and broadcasting activities, e.g., radio and television broadcasting, telecommunications, computer programming, consultancy and related activities and information service activities e.g. data processing; news agencies.

The activity recorded a growth rate of 10.3 percent in the second quarter of 2019 compared to 12.4 percent in the corresponding quarter of 2018. The growth rate was attributed to an increase in airtime used by mobile phone customers and the expansion of broadcasting and internet services in the country.

Figure 7: Second Quarter Sales of Telecommunication Services, 2015 - 2019

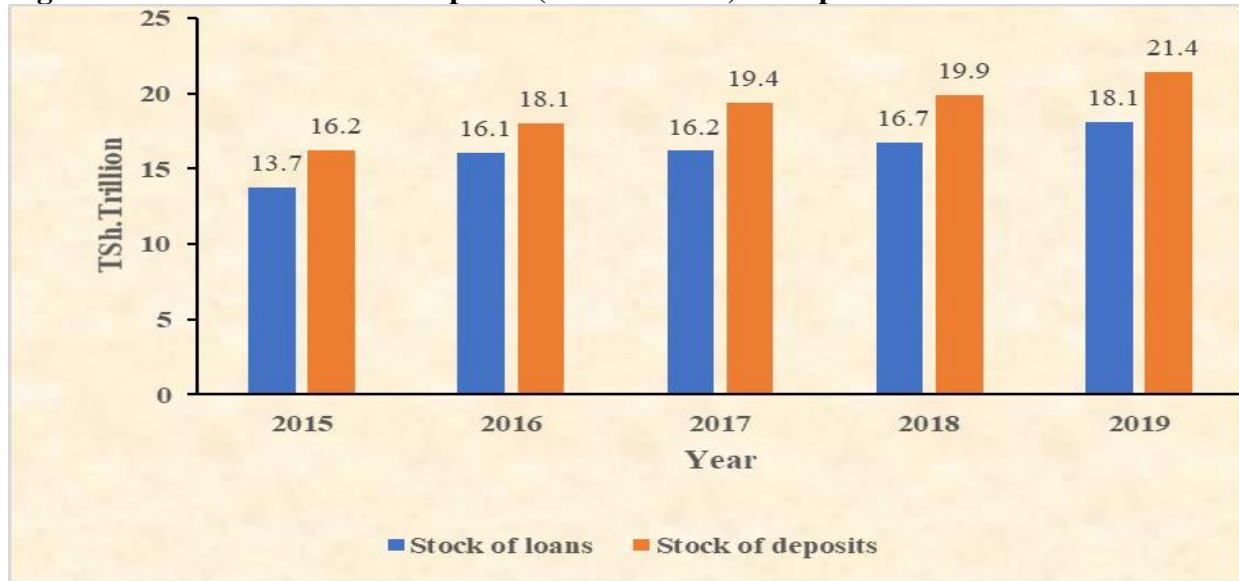

2.11 Financial and Insurance Services

The activity covers financial services, insurance and reinsurance, voluntary pension funding, auxiliary to financial service. It also includes the activities of holding assets, such as holding companies, trusts, funds and similar financial entities.

The activity recorded a growth rate of 5.0 percent in the second quarter of 2019 compared to a negative growth rate of 2.3 percent in the similar quarter of 2018. The growth of this activity was attributed to an increase of 7.6 percent in the level of deposits from 19.9 trillion in 2018 to 21.4 trillion in 2019 and an increase of 8.4 percent in level of lending from 16.7 trillion in 2018 to 18.1 trillion in 2019; as well as an increase in services provided by insurance companies.

Figure 8: Stock of Loans and Deposits (TZS. Trillion) for April - June 2015 - 2019

Financial Intermediation Services Indirectly Measured (FISIM)²

2.12 Real Estate Activity

This activity includes selling or buying of real estate, renting real estate, providing other real estate services such as appraising real estate. Activities in this industry may be carried out on own or leased property and may be done on a fee or contract basis. Also included is the building of structures, combined with maintaining ownership or leasing of such structures.

The activity recorded a growth rate of 4.5 percent in the second quarter of 2019 compared to a growth rate of 4.4 recorded in the similar period of 2018. The growth rate was attributed to a slight increase in demand for accommodation especially in urban areas.

2.13 Professional, Scientific and Technical Activities

This activity includes specialized professional, scientific and technical activities. These activities require a high degree of training, as well as making specialized knowledge and skills available to users.

The activity involves legal and accounting; activities of head offices; management consultancy; architectural and engineering; technical testing and analysis; scientific research and development; advertising and market research; other professional; scientific and technical as well as veterinary activities.

² FISIM is allocated to every economic activity.

The activity recorded a growth rate of 6.8 percent in the second quarter of 2019 compared to a growth rate 11.2 percent in the corresponding quarter in 2018. The growth rate was attributed to an increase in other professional, legal and accounting activities.

2.14 Administrative and Support Services

The activity includes a variety of services that support general business operations. Administrative and support services involve rental and leasing; employment; travel agency; tour operator; reservation service and related activities; security and investigation; as well as services to buildings and landscape.

The activity recorded a growth rate of 8.5 percent in the second quarter 2019 compared to a growth rate of 5.4 percent in the second quarter 2018. The growth rate was attributed to an increase in the performance of travel agent and tour operators' activities.

2.15 Public Administration and Defence; Compulsory Social Security

The activity includes the enactment and judicial interpretation of laws, legislative activities, taxation, national defence, public order and safety, immigration services, foreign affairs and the administration of government programmes. This activity also includes compulsory social security activities.

The activity recorded a growth rate of 4.7 percent in the second quarter of 2019 compared to a negative growth rate of 0.7 percent in the corresponding quarter of 2018. The growth was attributed to an increase in government spending in the services of maintaining peace and order.

2.16 Education

This activity includes education at any level or for any profession, oral or written as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at its different levels as well as adult education, literacy programs etc. The activity includes public as well as private education.

The activity recorded a growth rate of 5.8 percent in the second quarter of 2019 compared to a growth rate of 4.1 percent in the similar quarter of 2018. The growth was attributed to an increase in the number of enrolled students in public primary

and secondary schools,' private schools together with an increase in government spending in provision of education services.

2.17 Human Health and Social Work

The activity includes the provision of health and social services. It includes a wide range of activities, starting from health care provided by trained medical professionals in hospitals and other facilities, other residential care activities that still involve a degree of health care activities to social work activities without any involvement of health care professionals.

The activity recorded a growth rate of 2.4 percent in the second quarter of 2019 compared to growth rate of 5.9 percent in the similar quarter of 2018. The growth rate was caused by significant decrease in the number of Patients attended in private health facilities from 2,475,707 in 2018 to 2,424,900 million in 2019.

2.18 Art, Entertainment and Recreation

This activity includes a wide range of activities to meet varied cultural, entertainment and recreational interests of the general public, including live performances, operation of museum sites, gambling, sports and recreation activities.

The activity recorded a growth rate of 10.3 percent in second quarter 2019 compared to 16.1 percent in the corresponding quarter of 2018. The growth was attributed to the increase in artistic and recreation activities by urban populations.

2.19 Other Services Activities

This Industry includes the activities of membership organizations, the repair of computers and personal and household goods and a variety of personal service activities not covered elsewhere in the classification.

The activity recorded a growth rate of 6.2 percent in the second quarter 2019 compared to 7.1 percent in second quarter of 2018. The growth rate was attributed to the increase in the urban population and personal service activities.

2.20 Activities of Households as Employers

Activities of households as employers include domestic personnel such as maids, cooks, waiters, valets, butlers, laundresses, gardeners, gatekeepers, chauffeurs,

caretakers, governesses, babysitters, tutors, secretaries etc. The activity allows the domestic personnel employed to state the activity of their employer in censuses or studies, even if the employer is an individual. The product produced by this activity is consumed by the employing household.

The activity grew at the similar rate of 3.1 percent in the second quarter 2019 to that recorded in the corresponding quarter 2018. The growth rate was attributed to an increase in the urban population.

3.0 Conclusion

During the period under review, GDP increased at a growth rate of 7.2 percent compared to 6.1 percent in 2018. Activities that recorded double digit growth rates were Construction (19.6 percent); Mining and Quarrying (17.2 percent); Information and communication (10.3 percent) and water supply (10.0 percent)

In accordance with the National Accounts Revision policy that was implemented in early 2019, the disseminated second Quarter GDP 2019 may be revised depending on the availability of new data that was not included in the compilation from data sources due to lags in the responses to a survey, updates or correction of information.

Annex 1: Gross Domestic Product by Economic Activity at 2015 prices – TZS Million

Year	Quarter	Agriculture	Mining and quarrying	Manufacturing	Electricity	Water	Construction	Trade and Repair	Accommodation restaurant	Transport and storage	Information and communication	Financial & insurance
