

The United Republic of Tanzania

2020

Tanzania in Figures

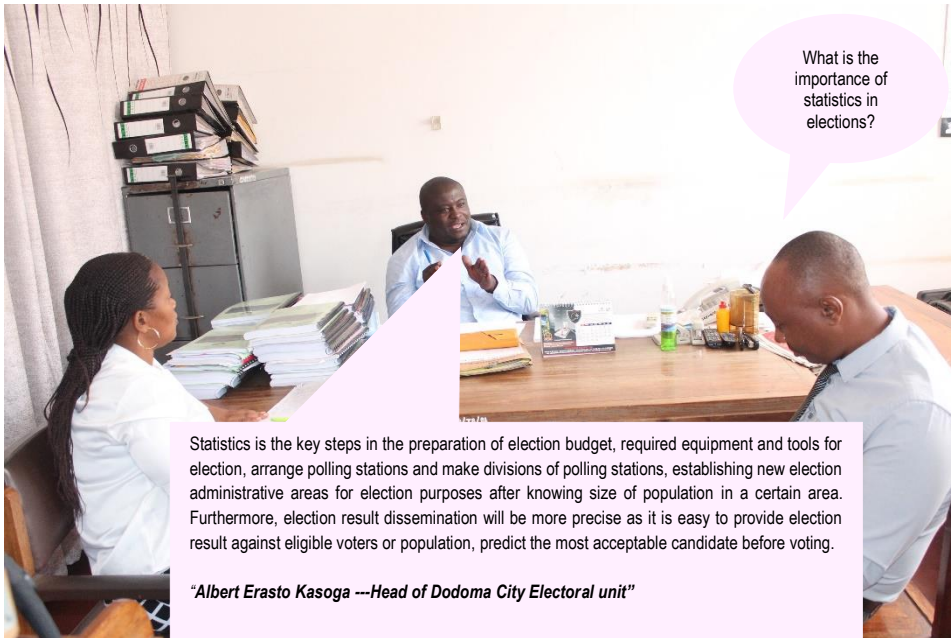

National Bureau of Statistics
Ministry of Finance and Planning
Dodoma
June 2021

H. E. Dr. John Pombe Joseph Magufuli
President of the United Republic of Tanzania

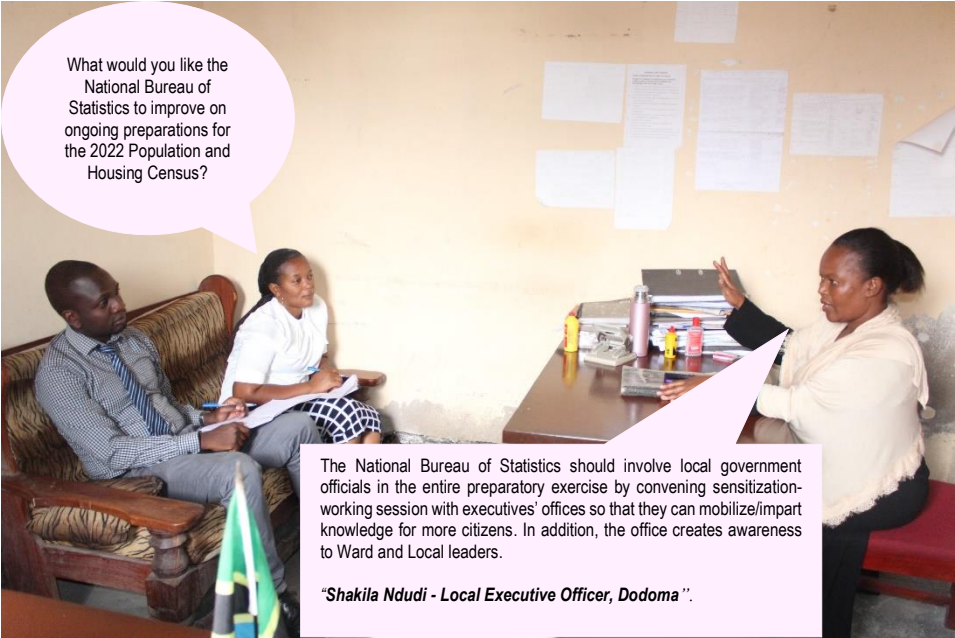

"Statistics are very vital in the development of any country particularly when they are of good quality since they enable government to understand the needs of its people, set goals and formulate development programmes and monitor their implementation" H.E. Dr. John Pombe Joseph Magufuli the President of the United Republic of Tanzania at the foundation stone-laying ceremony for the new NBS offices in Dodoma December, 2017.

What is the importance of statistics in elections?

Statistics is the key steps in the preparation of election budget, required equipment and tools for election, arrange polling stations and make divisions of polling stations, establishing new election administrative areas for election purposes after knowing size of population in a certain area. Furthermore, election result dissemination will be more precise as it is easy to provide election result against eligible voters or population, predict the most acceptable candidate before voting.

“Albert Erasto Kasoga ---Head of Dodoma City Electoral unit”

What would you like the National Bureau of Statistics to improve on ongoing preparations for the 2022 Population and Housing Census?

The National Bureau of Statistics should involve local government officials in the entire preparatory exercise by convening sensitization-working session with executives' offices so that they can mobilize/impart knowledge for more citizens. In addition, the office creates awareness to Ward and Local leaders.

"Shakila Ndudi - Local Executive Officer, Dodoma".

A photograph of three men in an interview setting. Two men are seated in plastic chairs (one red, one green) facing each other, while a third man stands between them. The man on the left is wearing a white shirt and tie, holding a notebook. The man on the right is wearing a patterned shirt and tie, also holding a notebook. The man in the center is wearing a white shirt and is gesturing with his hands. They are in a room with a blue door and a red cabinet in the background. A speech bubble is overlaid on the image.

What is the importance of statistics in your daily life?

Statistics is among the key paramount information required for to be business establishment. It helps to identify the kind of customers exist in the targeted area. Statistics also help us planning at family level.

"Hamis Mgalula --- Stationary Services provider, Dodoma".

What would you like the National Bureau of Statistics to improve on the ongoing preparations for the 2022 Population and Housing Census?

The National Bureau of Statistics is required to create public awareness for better understanding the importance of the national census. This will help citizens to provide accurate information, for planning accordingly.

"Manka Shiyo – Retailer of clothes, Dodoma".

Preface

Tanzania in Figures 2020 booklet gives clear insight of Tanzania's economic performance, social, environment and political spheres. This booklet presents data series for the period from 2016 to 2020.

Further, the booklet provides aggregated data and contains information from various official statistical publications compiled by the National Bureau of Statistics (NBS), Sector Ministries, Government Departments and Agencies. The information presented are useful to policy makers, for planning, monitoring and evaluation of various development programs at all levels.

The National Bureau of Statistics, as a coordinator and producer of official statistics in Tanzania, appreciates contributions made by various stakeholders in statistics for supplying input used in compilation of this booklet. In order to participate effectively in strengthening the National Statistical System (NSS), we urge further co-operation in updating and compilation of the forthcoming editions of similar booklet and other statistical publications.

The latest figures for 2020 presented in this booklet for some indicators are provisional and some indicators were revised according to the NBS revision policies. Also, information in some tables is sourced from census and surveys which mostly conducted in a lag of ten or five years. The data gaps attributed to the census and surveys shall be filled immediately upon availability of respective reports.

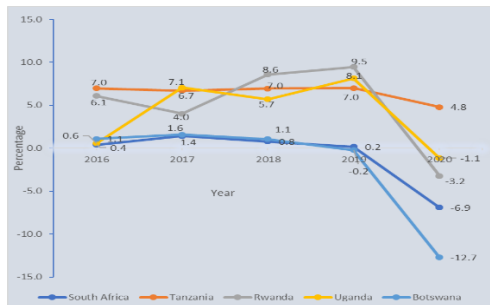

Comments and suggestions from all stakeholders that may enrich the next edition of Tanzania in Figures are welcome.

The soft copy of this booklet is also available on the NBS website; www.nbs.go.tz. For more information on the published statistics, please visit NBS library and the website.

WHAT IS NEW IN 2020

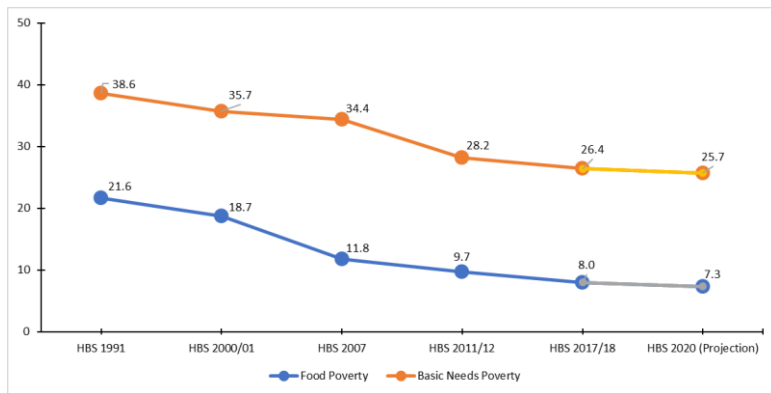

Economic Performance

The slowdown in global and African economic growth due to the emergence of the Corona Virus pandemic in 2019 (Covid 19) in December. Average economic growth for the East African Community countries that have already released four-quarter figures for 2020 show that only Tanzania had a positive growth of 4.8 in 2020 while Rwanda and Uganda had negative growth and this is based on the measures taken in the fight against Covid 19. Other African countries such as South Africa and Botswana recorded a negative growth of 6.9 percent and 12.7 percent respectively. Figure below shows the average growth rate of four quarters from 2016 to 2020 for some selected countries.

Poverty in Tanzania Continues to Decline

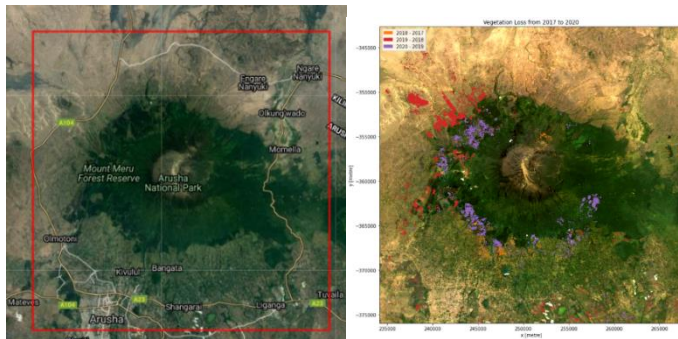

Estimation of food and basic needs poverty levels in 2020 has indicated a continuous decline of poverty in Tanzania Mainland. The estimation shows that basic needs poverty has declined from 26.4 percent in 2017/18 to 25.7 percent in 2020. Food poverty has also decreased from 8.0 percent in 2017/18 to 7.3 percent in 2020.

Use of Space Technology in the National Bureau of Statistics

Most African countries including Tanzania lack environmental statistics. The National Bureau of Statistics has envisaged in the use of Digital Earth Africa as a software infrastructure harnessing the latest global Earth observation satellite so as to implement the sustainable Development Goals, protecting the environment and improving people's lives by addressing various issues including agriculture related, food security, deforestation, urbanization and water quality. Areas addressing by NBS include

Deforestation

The Arusha National Park, northern Tanzania is dominated by Mount Meru. Above is the Arusha national park analysis using NDVI threshold approach, there is a vegetation loss of 2 km² in 2017, 5 km² in 2018 and 20 km² in 2019 meaning deforestation has increased from 2017 to 2019.

Water extent in Lake Manyara - Tanzania

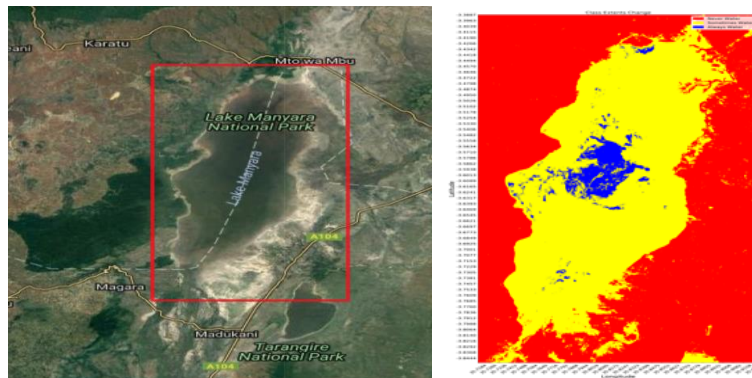

Figure 2

Lake Manyara is a shallow lake in the East African Rift Valley in Tanzania. It is a home of a diverse set of landscapes and wildlife. The lake covers 329 square kilometers with alkaline water (with a pH near 9.5), though the area and pH fluctuate widely with seasons, and dry spells expose large areas of mud flats.

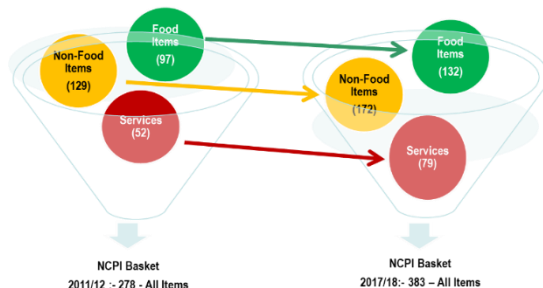

Figure 2. Water extent change analysis was performed using water observation from space (**WOFS**) method in year 2017 the results show that, **57.8%** of the region was never water, **39.4%** of the region was sometimes water and **2.8%** of the region was always water. This represents a gain in spatial area of water extent.

Rebased National Consumer Price Indices (NCPI) From December 2015 to Year 2020

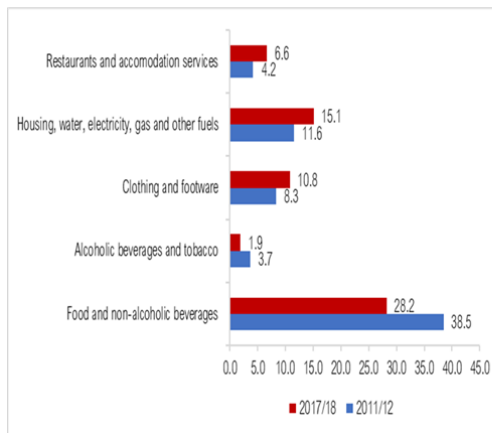

In year 2020, the National Bureau of Statistics rebased national consumer prices indices to align with changes on socio-economic conditions and technological advancement; and update the NCPI basket of goods and services. The main outcomes of rebased NCPI were changing of reference period for base prices from December 2015 to the average of January to December 2020; the index reference period from December 2015 to the average of January to December 2020; and NCPI weights from the year 2011/12 to 2017/18.

Areas with improvements: -

☐ National Basket of Goods and Services

- ❑ Geographical Coverage: - Has expanded from 25 regions to 26 in Tanzania Mainland to take into account of newly established Songwe region
- ❑ Basket of Goods and Services that had Significant Changes on NCPI Weights

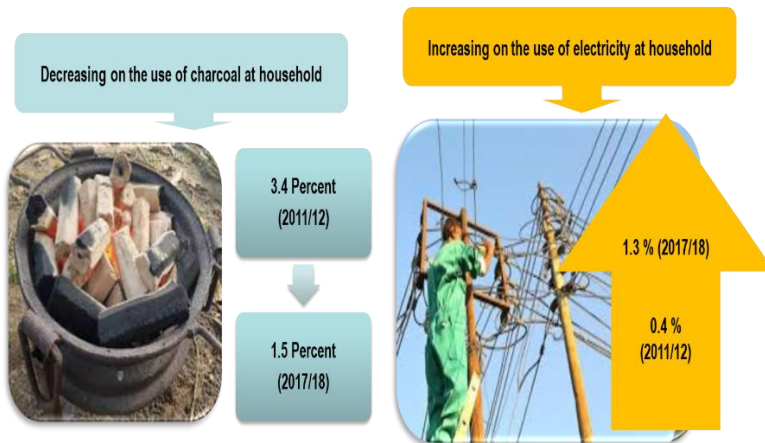

Key Message:

▪ NCPI weights for food and non-alcoholic beverages group has decreased from **38.5 percent** in year 2011 to **28.2 percent** in year 2017/18.

▪ This is a good indicator of declining household poverty, as most of household members direct their financial expenses on improving other household services;

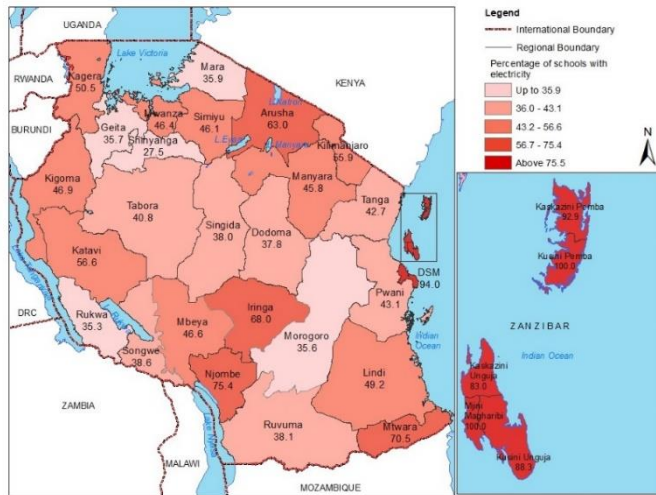

▪ For example:- Consumption on Housing, water, electricity, gas and other fuels had increased from **11.6 percent in year 2011/12 to 15.1 percent in 2017/18**

❑ Some Specific Outcomes: -

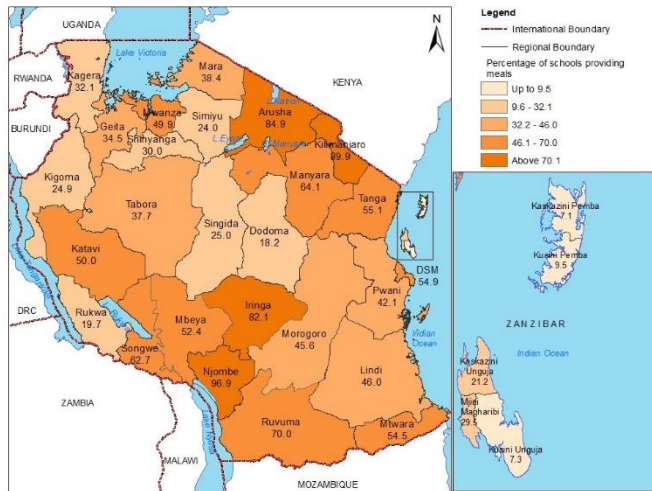

2018 School Water, Sanitation and Hygiene Assessment (SWASH)

Percent of Schools with Electricity by Region, Tanzania, 2018

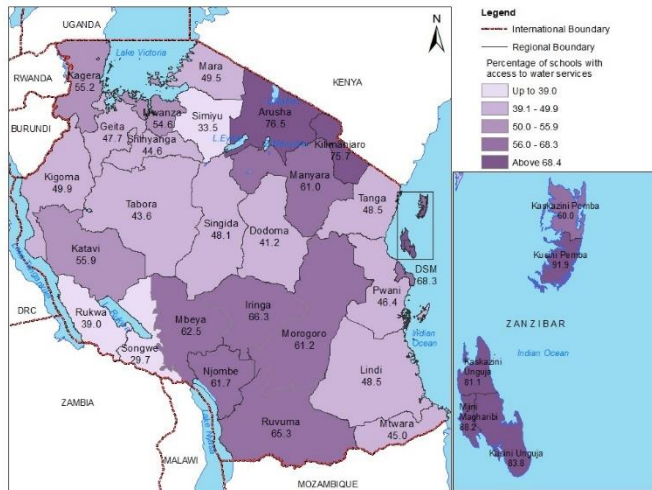

Almost half of the schools in Tanzania (49.9%) have electricity regardless of the source.

Percent of Schools Providing Meals to Pupils by Region, Tanzania, 2018

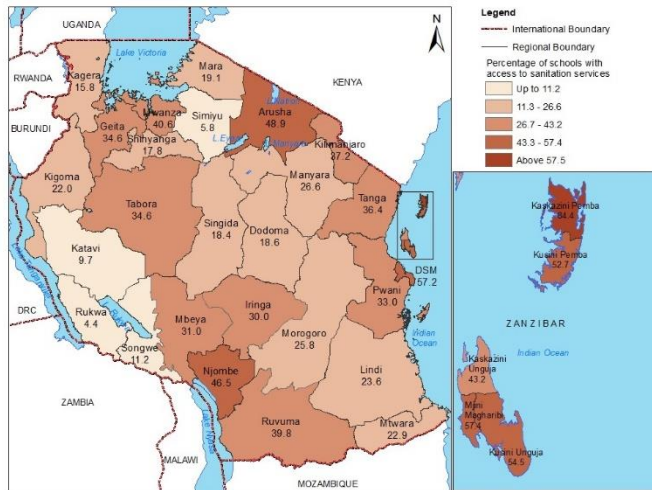

About half of the schools (49.7%) in Tanzania provide meals to pupils/students.

Percentage of Schools with Basic Water Services by Region, Tanzania, 2018

Percentage of schools with basic water services ranged from 29.7% in Songwe Region to 91.9% in Kusini Pemba Region.

Percentage of Schools with Access to Sanitation Services by Region, Tanzania, 2018

Regional disparities in the availability of basic sanitation services in schools ranged from 4.4% in Rukwa Region to 84.4% in Kaskazini Pemba.

Rounding

Figures are rounded off independently therefore, details may not add to total

.

1.0 Background

Tanganyika became independent and a republic on 9th December 1961 and 1962 respectively. Zanzibar became independent on 10th December 1963 and the People's Republic of Zanzibar was established after the Revolution on 12th January 1964. The two sovereign states formed the United Republic of Tanzania on 26th April 1964.

The general elections held in October 2020 brought into power His Excellency Dr. John Pombe Joseph Magufuli from Chama Cha Mapinduzi (CCM) as the fifth President of the United Republic of Tanzania for completion of his second five-year term.

Dodoma is the capital city and Dar es Salaam is the major commercial city. The official currency is Tanzanian Shilling (TZS) and national language is Kiswahili, but English is also widely used.

2.0 Geography

Geographical Location, Boundaries and Area

Tanzania is located in Eastern Africa between longitudes 29° and 41° East, and latitudes 1° and 12° South:

Most northerly point	Mutukula	$1^{\circ} 01'S$ and $31^{\circ} 25' E$,
Most southerly point	Mtalika	$11^{\circ} 32'S$ and $37^{\circ} 05' E$,
Most westerly point	Kigoma	$4^{\circ} 52'S$ and $29^{\circ} 38' E$
Most easterly point	Msimbati	$10^{\circ} 21'S$ and $40^{\circ} 26' E$.

Tanzania Mainland has frontiers with the following countries/ocean:

North:	Kenya and Uganda;
West:	Rwanda, Burundi and Democratic Republic of Congo;
South West:	Zambia and Malawi;
South:	Mozambique; and
East:	Indian Ocean.

Tanzania Zanzibar is located in the Indian Ocean about 30 kilometers from Tanzania Mainland.

The Tanzania HIV Impact Survey 2016 - 2017 (THIS)

Annual HIV Incidence using Lag/VL/ARV testing algorithm, THIS 2016 - 2017

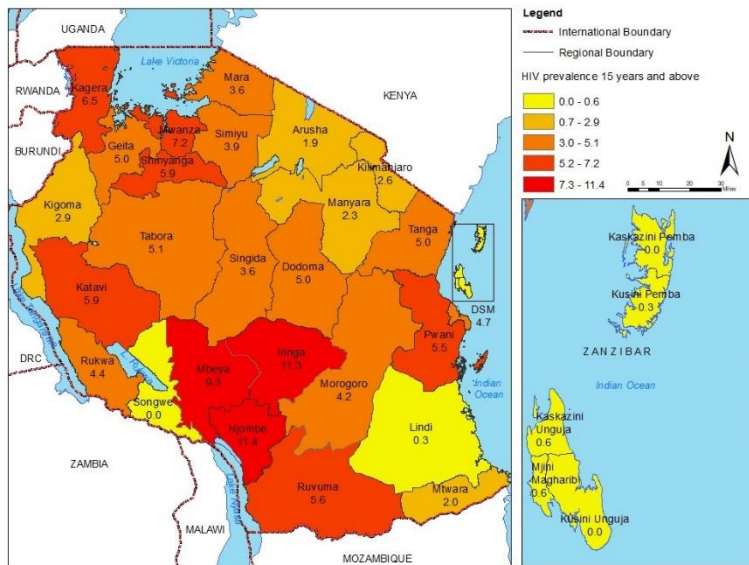

LAG/VL/ARV: Limiting antigen/Viral load/Antiretrovirals

HIV Prevalence

Prevalence of HIV infection among adults aged 15 years and older in Tanzania was 4.9% (6.3% among females, and 3.4% among males). This corresponds to approximately 1.4 million PLHIV aged 15 years and older in the country.

HIV Prevalence Among Adults Aged 15 Years and Older, by Region, THIS 2016 - 2017

Source: National Bureau of Statistics

Hepatitis B Virus

Hepatitis B is one of the blood borne diseases routinely screened among individuals donating blood at the blood bank in Tanzania.

Prevalence of Hepatitis B among persons aged 15 - 49 and 15+ years, by Sex and Result of THIS HIV test, THIS 2016 - 2017

Demographic Characteristics	15 - 49 years	15+ years
Sex		
Male	4.3	3.8
Female	3.7	3.3
Total	4.0	3.5
THIS HIV test		
HIV positive	4.3	5.2
HIV negative	4.0	3.4

Source: National Bureau of Statistics; Tanzania HIV Impact Survey (A Population-Based HIV Impact Assessment) THIS 2016-2017

Viral Load Suppression

Viral load suppression is a key indicator of treatment success in HIV-positive individuals. For the purposes of THIS, VLS was defined as VL less than 1,000 HIV RNA copies/mL of plasma among the population of HIV-positive persons ages 15 years and above.

Overall, 51.9% of HIV-positive adults aged 15 years and older had VLS (41.5% among males and 57.2% among females).

13.0 Land Rights and Tenure Security

For the First Time Tanzania Started Reporting SDG Indicator Number 1.4.2 in 2018.

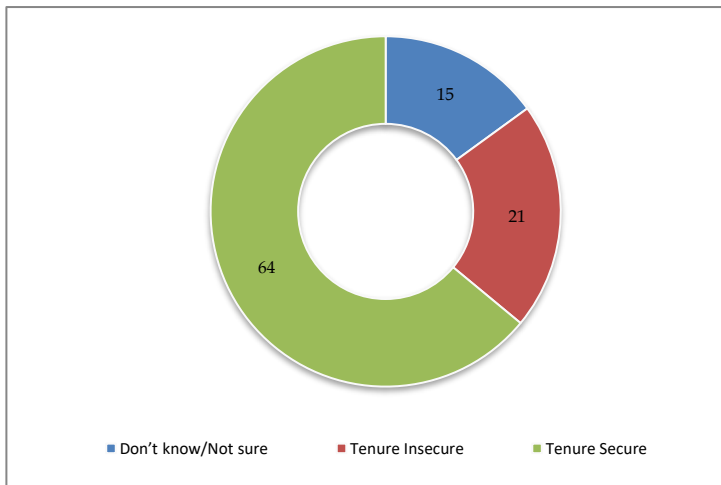

“Proportion of Total Adult Population with Secure Tenure Rights to Land, With Legally Recognized Documentation and who Perceive their Rights to Land as Secure, by Sex and by Type of Tenure”

This result is based on the Baseline survey on Property Rights and Tenure Security (PRINDEX) conducted in 2018 aimed at assessing individual adults' perceptions regarding ownership, use rights and security of lands and dwelling. The security was measured based on their likelihood of losing rights and ownership of formal documentation proving their ownership or use rights. Other 32 countries worldwide conducted this survey with same purposes.

Selected Main Findings in Brief:

- Tanzania is at 4th position out of 9 Eastern and Southern African countries with 64 percent of interviewed adults believed their property are TENURE SECURE, also above the average of 61 percent for 9 western Africa states.
- Tanzania stands at 10th position out of 33 countries worldwide involved in same study having 50 percent of interviewed adults own dwelling they are living in.
- Security levels on ownership and use of property remains very low among renters (37 %) and 14 percent among owners of dwelling.

Proportions of Adults with Levels of Tenure Security – Based on Likelihood of Losing Rights Ownership and Use, 2018

Voluntary National Review (VNR) for SDG Implementation

Voluntary National Reviews (VNRs) are part of formal inter-governmental follow-up and review process on the Agenda 2030 presented at the United Nations High Level Political Forum (HLPF). They outline a country's progress report to its peers and other stakeholders at the global level on the implementation of the Agenda 2030. The theme for 2019 VNR is 'Empowering people and ensuring inclusiveness and equality' and the goals under review are SDG 4-Quality Education; SDG 8 - Decent Work and Economic Growth; SDG 10 - Reduced Inequalities; SDG 13 -Protect the Planet; SDG 16 -Peace and Justice; and SDG 17 - Partnership for the Goals. Tanzania for the first time presented it's SDGs National Voluntary Review Report in July 2019. The Tanzania VNR provided a comprehensive review of six goals under review for 2019 and a snapshot of all 17 goals.

Tanzania also submitted the 2019 VNR Key messages to UN DESA on 17th May, 2019, of which results indicated that, Tanzania is doing reasonably well in goals 2, 3, 4, 5, 6, 8, 10, 16. Goals 7, 9, 11, 12 are likely to be achieved with stepped-up efforts. Goals 1, 13, 14, 15 17 will need significant local efforts and international support to achieve.

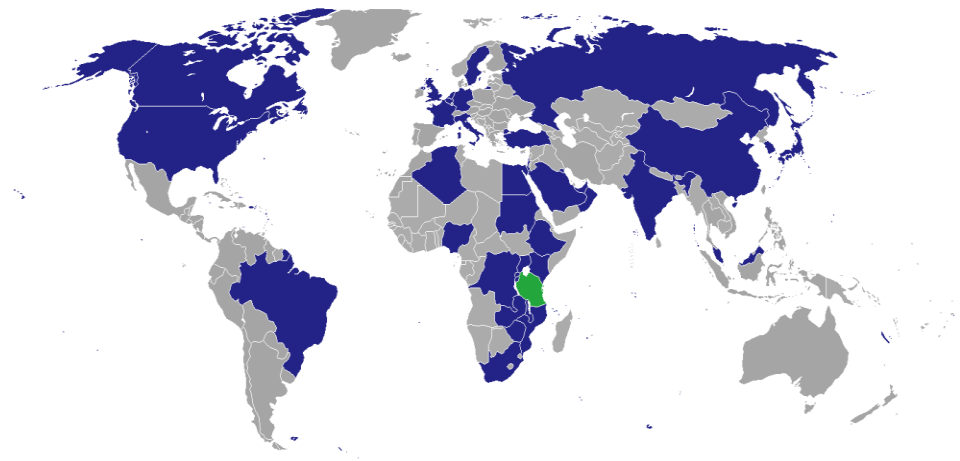

Progress of Thematic Goals at a Glance

Doing reasonably well	 <p>4 QUALITY EDUCATION</p>	 <p>8 DECENT WORK AND ECONOMIC GROWTH</p>	 <p>10 REDUCED INEQUALITIES</p>	 <p>16 PEACE, JUSTICE AND STRONG INSTITUTIONS</p>	Very strong supportive policy environment; strong partnerships; whole- of-society approach; effective inclusive programmes
Substantial international support needed to achieve goals	 <p>13 CLIMATE ACTION</p>	Low scientific capacity to monitor the environment; absence of baseline data	 <p>17 PARTNERSHIPS FOR THE GOALS</p>	Resource mobilization constraints	Stepped-up local efforts and international partnerships needed to complement domestic efforts in both goals

Capacity Building on Big Data for monitoring national, regional and global development agenda

The National Bureau of Statistics (NBS) in collaboration with DPs including UNDP Tanzania implemented a program on big data towards monitoring and implementation of Agenda 2030 and Africa Agenda 2063. Overall objective of the program was to support compilation of big data to enhance availability of real time data for the monitoring of national, regional and global development frameworks. The program is useful and relevant as it helped to enhance statistician's knowledge on the big data definitions, concepts and analytics techniques which are fundamental aspects of the big data utilization. Compilation of big data with special attention to quality issues will help to complement available data from traditional sources of data by providing real time data for real time decisions.
