## 1.0 Introduction

This report presents official Quarterly Gross Domestic Product (QGDP) estimates for Tanzania Mainland. The QGDP estimates do facilitate frequent and appropriate policy interventions by providing reliable and timely reports on recent and short term economic development. The current quarterly Gross Domestic Product (GDP) estimates are revised when necessary using the new data from the field.

### 1.1 Economic Performance

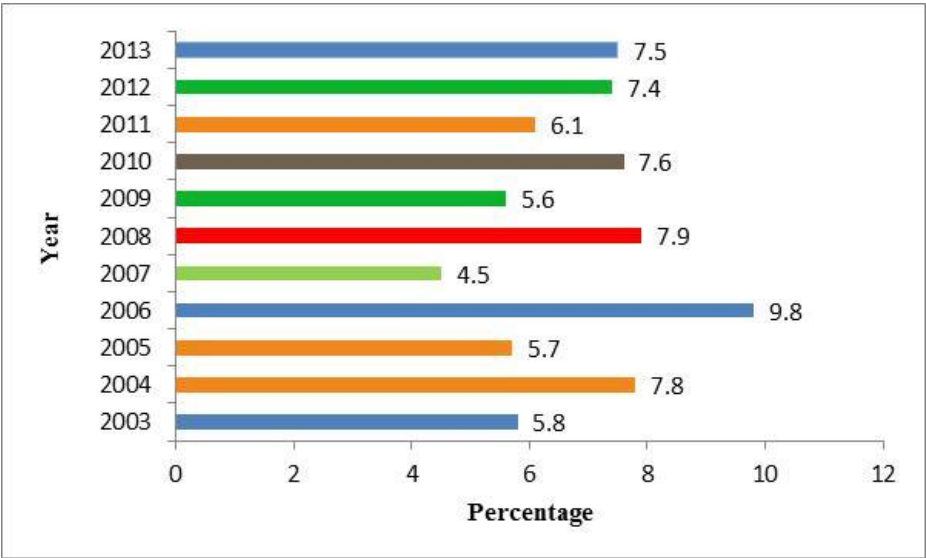

In the report, the real growth rates are measured as percentage changes of QGDP for the current year as compared to the QGDP for the previous year. The real growth rate for the first quarter of the year 2013 is therefore the percentage change between the QGDP for the first quarter of the year 2012 and the corresponding QGDP for the first quarter, for the year 2013.

The Real Gross Domestic Product at market price is estimated to have increased at a growth rate of 7.5 percent in the first quarter of 2013 compared to a growth rate of 7.4 percent in the first quarter of 2012, Figure 1.

In absolute terms, the QGDP for the quarter under review was 4,540,456 million shillings for the year 2013 compared to 4,225,585 million shillings in 2012, Annex 1.

**Figure 1: Growth Rates for the First Quarter, 2003-2013**

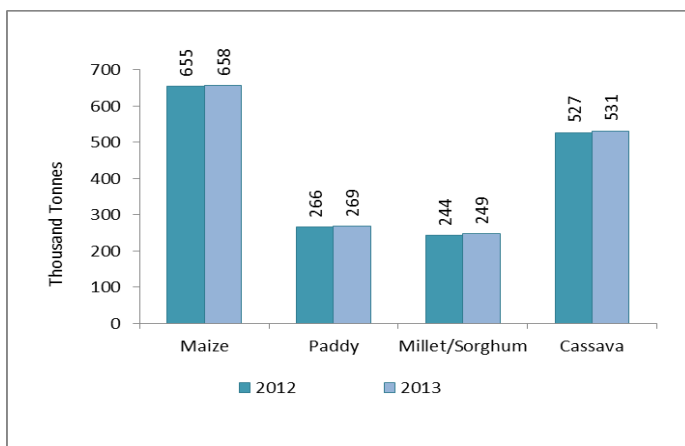

**2.0    Agriculture**

Agriculture activity covers production of food and cash crops, livestock, forestry and hunting. The activity registered a growth rate of 1.4 percent in the first quarter of 2013 compared to a growth rate of 0.4 percent in the corresponding quarter of 2012. The increase in growth rate was due to the increase in the

harvest of major food crops. The quantity of maize harvested increased by 0.5 percent from 655 thousand tonnes in the first quarter of 2012 to 658 tonnes in the first quarter of 2013. Paddy harvested increased from 266 thousand tonnes in the first quarter of 2012 to 269 thousand tonnes in the corresponding quarter of 2013. Millet/Sorghum harvested in the first quarter of 2012 was 244 thousand tonnes compared to 249 thousand tonnes in the corresponding quarter of 2013 which is an increase of 2.0 percent, while cassava harvested increased by 0.8 percent from 527 thousand tonnes in the first quarter of 2012 to 531 thousand tonnes in the first quarter of 2013.

**Figure 2: Production / Quantity Harvested of Selected Major Crops; First Quarter 2012 and 2013**

---

---

### 3.0 Fishing

Fish activity covers harvesting of fish from fresh water, marine water, rivers and dams.

The activity recorded a growth rate of 1.8 percent in the first quarter of 2013 compared to a growth rate of 2.0 percent in the similar quarter of 2012. The decrease in growth was mainly caused by a decrease of fish catch from fresh waters.

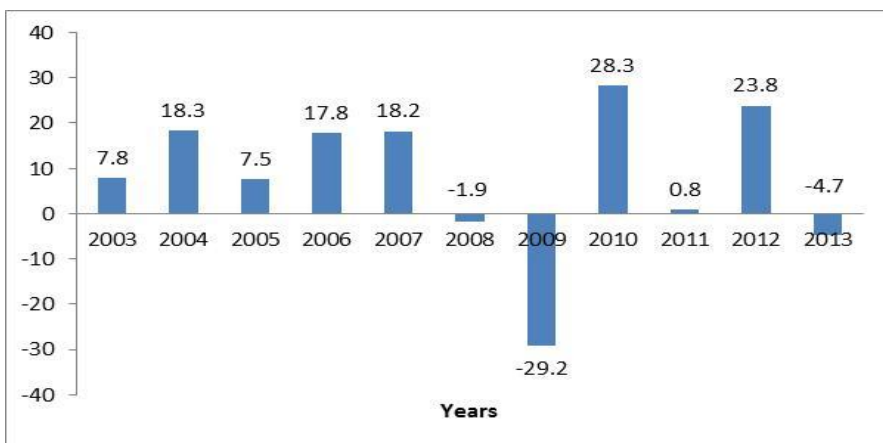

### 4.0 Mining and Quarrying

Mining and quarrying covers activity of extracting metals, precious stones and other minerals from the sub soil as well as minerals that occur naturally on the surface. It also involves polishing, pelleting and grading in order to add value to minerals.

The activity declined by a rate of 4.7 percent in the first quarter of 2013 compared to a growth rate of 23.8 percent in the first quarter of 2012. The decline in the rate of growth was attributed to less gold and diamond produced in the reference period due to the fall in their prices in the world market. Also, during the period, Tulawaka Goldmine Company had stopped production because of the expired mining licence. During the period, 8,059

kilogrammes of gold were produced compared to 10,625 kilogrammes produced in the first quarter of 2012. Also, 49,332 carats of diamond were produced compared to 57,330 carats during the corresponding quarter of the year 2012. However, Tanzanite produced in the first quarter of 2013 were 3,871 kilograms compared to only 180 kilograms produced in the corresponding period in 2012.

**Figure 3: Percentage Growth Rates for Mining and Quarrying; First Quarter, 2003-2013**

## 5.0 Manufacturing

Manufacturing activity covers processing of raw materials to finished or semi-finished goods. The finished or semi-finished

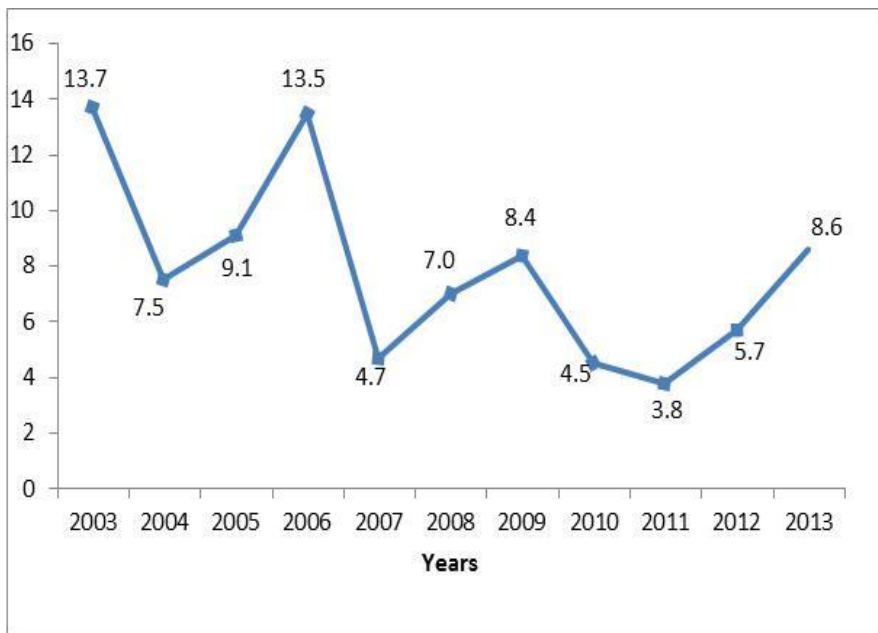

---

---

goods can be for final use or intermediate input for further processing. The goods include products of agriculture, forestry, fishing, mining and quarrying and products of manufacturing activities.

The activity recorded a growth rate of 8.6 percent in the first quarter of 2013 compared to a growth rate of 5.7 percent in the corresponding quarter of 2012. The increase in growth by 2.9 points was recorded in the first quarter of 2013. During the period, the increase in production was recorded from most sub-groups including manufacturing of food products, beverages, chemicals and metal products. The total volume of maize flour, wheat flour and rice increased from 109,802 tonnes in the first quarter of 2012 to 117,135 tonnes during the same period of 2013 which is equivalent to 6.7 percent increase. Beer produced in the first quarter of 2013 was 94,512 thousand litres compared to 85,103 thousand litres in the first quarter of 2012 while spirits and soft drinks produced in the first quarter of 2013 was 3,842 and 168,911 thousand litres compared to 82,807 and 156,441 thousand litres produced in the similar period in 2012.

**Figure 4: Percentage Growth Rates for Manufacturing; First Quarter, 2003-2013**

## 6.0 Electricity and Water

Electricity activity covers generation of electric power from thermal, hydro, solar, wind, biomass, geothermal, and biogas. Water activity covers supply of water from sources such as rivers, dams and wells for socio-economic activities.

The activity recorded the growth rate of 6.3 percent in the first quarter of 2013 compared to a growth rate of 5.1 percent in the

---

---

corresponding quarter of 2012. The increased growth rate by 1.2 points was attributed to the increase in electricity generated from thermal and gas plants.

## **7.0 Construction**

Construction activity covers clearing of sites and building of infrastructure such as roads, bridges, dams, airports, railways, buildings and utilities. Construction also includes activities of preparing a site for subsequent construction activities including the removal of previously existing structures.

Construction activity grew at a rate of 5.3 percent in the first quarter of 2013 compared to a growth rate of 3.7 percent in the first quarter of 2012. The increase in growth by 1.6 points was caused by increase in construction activities during the reference period. Construction activities included the work in progress of construction projects such as Tabora airport, Dar es Salaam Bus Rapid Transport Network, Manyoni – Itigi - Chaya road and rehabilitation of Arusha to Minjingu road, and Korogwe – Mkumbara – Same road.

## **8.0 Wholesale and Retail Trade, Repair of Motor Vehicles, Motorcycles, Personal and Household Goods**

This covers purchasing of domestic manufactured goods and imported merchandised goods for resale. The activity also

---

---

covers repair of motor vehicles, motor cycles and personal and household goods.

This activity recorded a growth rate of 9.5 percent in the first quarter of 2013 compared to 12.1 percent in similar quarter of 2012. The decrease in growth by 2.6 points was attributed to traded domestic manufactured goods and imports of merchandized goods. The index of deflated output for this activity derived from trade turnovers increased to 279 in the first quarter of 2013 from 254 in the corresponding quarter of 2012.

## **9.0 Hotels and Restaurants**

This activity includes accommodation services, food, beverages, beers and spirits served to visitors. It covers services provided to both domestic and international visitors.

The activity recorded a growth rate of 3.4 percent in the first quarter of 2013 compared to 3.9 percent in the corresponding quarter of 2012. The decrease in growth by 0.5 points was caused by a slight increase in the number of domestic and international visitors. The overall bed occupancy index increased to 170 in the first quarter of 2013 from 165 in the corresponding quarter of 2012. While, the number of domestic hotel visitors increased to 154,228 in the first quarter of 2013

---

---

from 153,741 in the corresponding quarter of 2012. The number of international hotel visitors increased to 158,611 during the first quarter of 2013 from 149,610 in the corresponding quarter of 2012.

## **10.0 Transport and Communication**

Transport activity covers transportation of passengers, handling of cargo and storage services while communication covers telephone, posts and courier services.

The activity recorded a growth rate of 22.2 percent in the first quarter of 2013 compared to 16.2 percent in the corresponding quarter of 2012. The increase in growth by 6.0 points was attributed to the increase in the number of passengers and volume of cargo handled during the period and increased airtime used by mobile phone customers. The introduction of commuter train in Dar es Salaam city has also contributed to the increased number of passengers.

## **11.0 Financial Intermediation**

This activity covers services provided by central bank, commercial banks, bureau de changes and insurance companies.

---

---

The activity recorded a growth rate of 13.7 percent in the first quarter of 2013 compared to 13.1 percent in the corresponding quarter of 2012. The increase in growth by 0.6 points was attributed to increase in levels of deposits and lending by commercial banks and the services by insurance companies.

## **12.0 Real Estates and Business Services**

Real estate covers renting of houses/structures for residential, commercial and storage purposes while business services cover provision of professional services such as accounting and legal services.

The activity recorded a growth rate of 10.0 percent in the first quarter of 2013 compared to a growth rate of 8.1 percent in the corresponding quarter of 2012. The increase in growth by 1.9 points was attributed to the increase in the demand of renting services and the increase in the supply of renting facilities during the reference period.

---

---

### 13.0 Public Administration

Covers provision of both collective and individual services by the government to the public.

The activity recorded a growth rate of 3.6 percent in the first quarter of 2013 compared to a growth rate of 6.8 percent in the corresponding quarter of 2012. The decrease in growth by 3.2 points was caused by low level of the government engaging new public servants during the quarter under review in 2013 compared the similar quarter in 2012.

### 14.0 Education

This covers services provided by public and private owned schools. It includes all levels of schooling from pre-primary level to higher learning level.

The activity recorded a growth rate of 5.6 percent in the first quarter of 2013 compared to a growth rate of 6.0 percent in the similar quarter of 2012. The decrease in growth rate by 0.4 points was caused by the less number of enrolled pupils in primary schools in 2013 compared to 2012.

---

---

## 15.0 Health; Other Social, Community and Personal Services

This covers services provided by both public and private owned health facilities. It includes dispensaries, health centres, district hospitals, regional hospitals, referral hospitals and the Muhimbili National Hospital. Other social, community and personal services such as spiritual services and library services are covered here.

The activity recorded a growth rate of 4.3 percent in the first quarter of 2013 compared to a growth rate of 4.9 percent in the corresponding quarter of 2012. The fall in growth by 0.6 points was due to a slight decrease in the provision of health facilities and improved other social, community and personal services to the public during the period under review.
