## 1.0 Introduction

This report presents official Quarterly Gross Domestic Product (QGDP) estimates for Tanzania Mainland. The QGDP estimates do facilitate frequent and appropriate policy interventions through the provision of reliable and timely reports on recent short term economic development. The current QGDP estimates are subject to revision when necessary using the revised data from the field.

### 1.1 Economic Performance

In the report, the real growth rates are measured as percentage changes of QGDP for the current year as compared to the QGDP for the previous year. The real growth rate for the third quarter of the year 2012 is therefore the percentage change between the QGDP for the third quarter of the year 2011 and the QGDP for the third quarter of the year 2012.

The real Gross Domestic Product at market price is estimated to have increased at a growth rate of 6.5 percent in the third quarter, 2012 compared to a growth rate of 5.9 percent in the third quarter of 2011, (Figure 1).

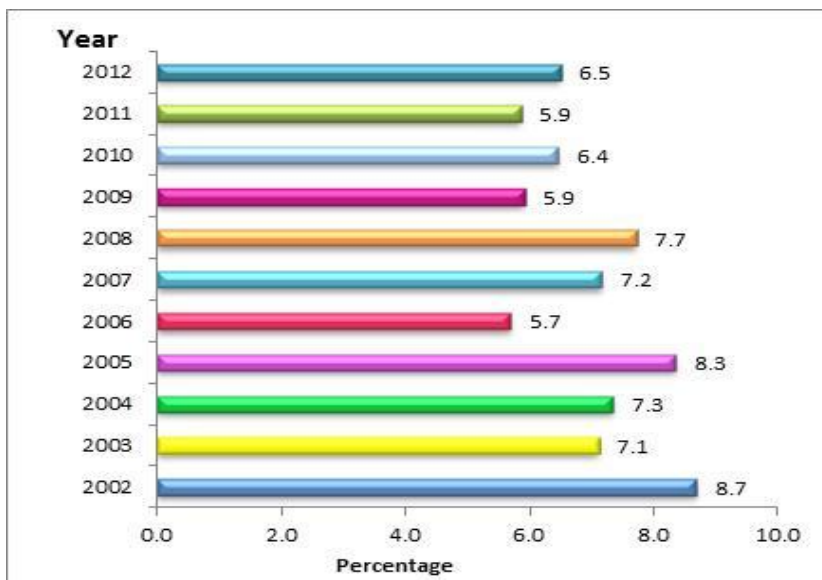

---

---

In absolute terms, the QGDP for the quarter under review was 5,512,941 million shillings for the year 2012 compared to 5,176,704 million shillings in 2011, (Annex 1).

**Figure 1: Growth Rates of QGDP for the Third Quarter, 2002-2012**

## 2.0 Agriculture

Agriculture covers production of food and cash crops, livestock, forestry and hunting. The activity registered a growth rate of 4.4 percent in the third quarter of 2012 compared to a growth rate of 5.1 percent registered in the corresponding quarter of 2011. The performance was due to favourable rainfall received during the

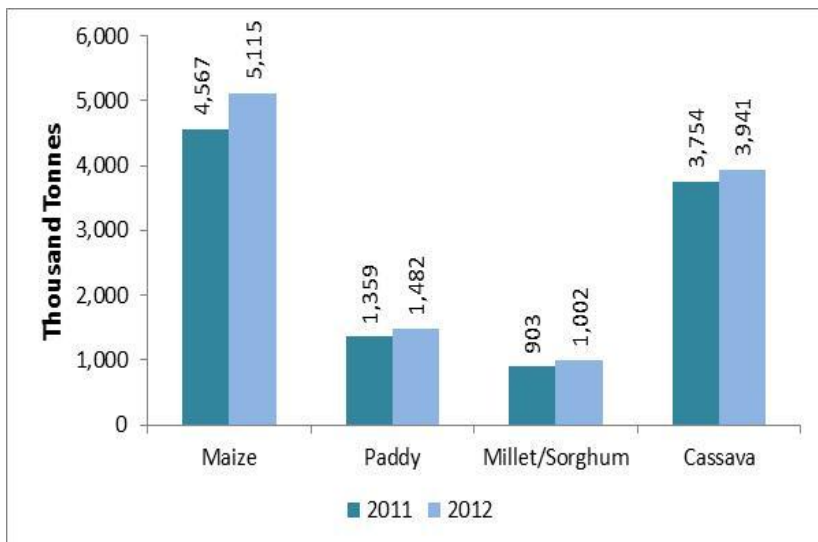

---

---

reference period in the areas potential for agricultural production and the government effort of improving production through the provision of subsidised farm implements to the farmers.

During the period, the quantity of harvested maize increased by 12.0 percent, from 4,567 thousand tonnes in the third quarter of 2011 to 5,115 thousand tonnes in the corresponding quarter for 2012. Paddy harvested increased by 9.1 percent from 1,359 thousand tonnes in the third quarter of 2011 to 1,482 thousand tonnes in the corresponding quarter of 2012. Millet/sorghum harvested increased by 11.0 percent from 903 thousand tonnes in the third quarter of 2011 to 1,002 thousand tonnes in the corresponding quarter of 2012 while the harvested cassava increased by 5.0 percent from 3,754 thousand tonnes in the third quarter of 2011 to 3,941 thousand tonnes in the third quarter of 2012.

**Figure 2: Production / Quantity Harvested of Selected Major Crops; Third Quarter, 2011 and 2012**

### 3.0 Fishing

Fish production covers harvesting of fish from fresh water, marine water, rivers and dams.

Fishing recorded a growth rate of 2.3 percent in the third quarter of 2012 compared to a growth rate of 1.5 percent in the similar quarter of 2011. The growth was mainly attributed to increased demand for fish and fish products both at local and foreign markets.

---

---

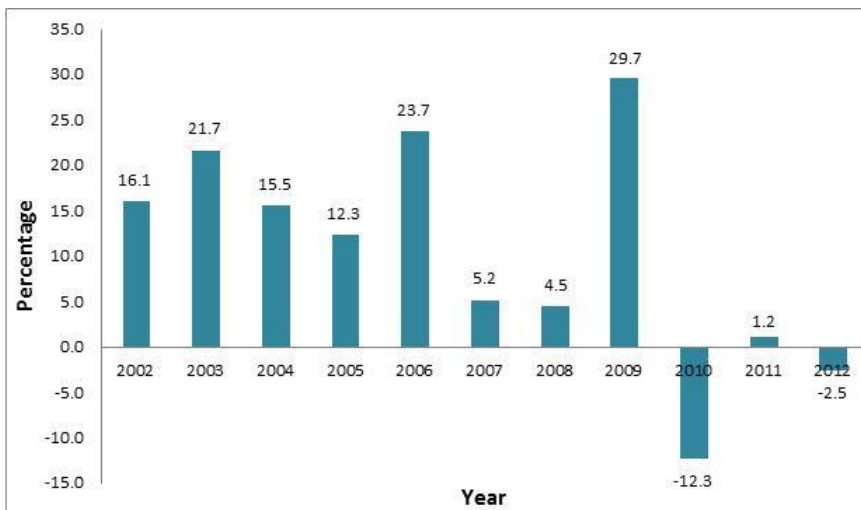

## 4.0 Mining and Quarrying

Mining and quarrying covers activity of extracting metals, precious stones and other minerals from the sub soil as well as minerals that occur naturally on the surface. It also involves polishing, pelleting and grading in order to add value to minerals.

The activity recorded a negative growth rate of 2.5 percent in the third quarter of 2012 compared to a growth rate of 1.2 percent in the third quarter of 2011. The suspension of gold extraction from copper concentrates rock, with less gold concentration at Bulyanhulu mine and the introduction of a new management in Barrick Goldmines caused the sector's negative growth. During the period, 9,371 kilogrammes of gold was produced compared to 11,384 kilogrammes produced in the third quarter of 2011. In the same period, 28,792 carats of diamond was produced compared to 2,824 carats during the corresponding quarter of the year 2011.

**Figure 3: Percentage Growth Rates for Mining and Quarrying; Third Quarter, 2002-2012**

## 5.0 Manufacturing

Manufacturing covers processing of raw materials to finished or semi-finished goods. The finished or semi-finished goods can be for final use or intermediate input for further processing.

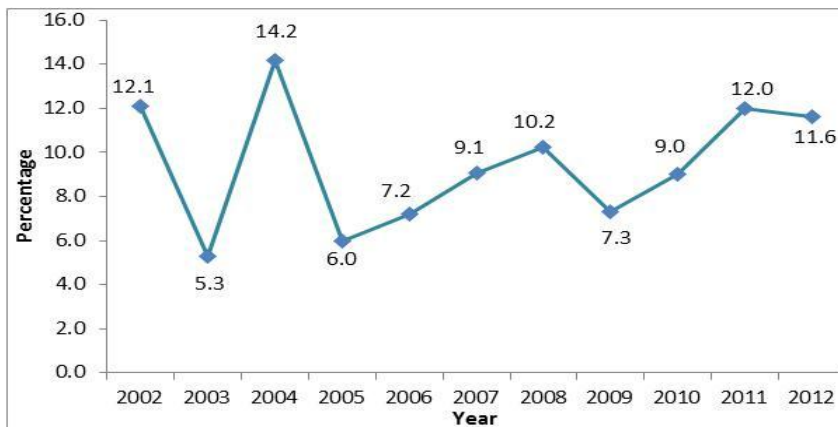

The activity recorded a growth rate of 11.6 percent in the third quarter of 2012 compared to a growth rate of 12.0 percent in the corresponding quarter of 2011. The production was attributed to the supply of power during the period which resulted into

---

---

increased volume of manufactured products including food products, beverages and cement.

**Figure 4: Percentage Growth Rates for Manufacturing; Third Quarter, 2002-2012**

## 6.0 Electricity and Water

Electricity covers generation of electric power from thermal, hydro, solar, wind, bio-mass, geo-thermal, bio-gas and natural gas. Water covers supply of water from sources such as rivers, dams and wells for socio-economic activities.

The activity recorded a growth rate of 15.3 percent in the third quarter of 2012 compared to a negative growth rate of 2.8 percent in the corresponding quarter of 2011. The growth rate was attributed to the increase in thermal and gas electricity generation

*Gross Domestic Product, Third Quarter 2012*

---

---

which accounted for 77 percent of the total generation. Total electricity generated increased to 1,351 million Kwh in the third quarter of 2012 from 1,231 million Kwh generated in the corresponding quarter of 2011.

## **7.0 Construction**

Construction covers clearing of sites and building of infrastructure such as roads, bridges, dams, airports, railways, buildings and utilities. Construction may also include demolition of old structures for the purpose of building new structures.

Construction activity grew at a rate of 6.5 percent in the third quarter of 2012 compared to a negative growth rate of 5.4 percent in the third quarter of 2011. The growth was attributed to the increase in the construction activities during the reference period. The construction activities include the work in progress of construction projects such as Tabora airport, Dar es Salaam Bus Rapid Transport network, Manyoni - Itigi - Chaya road and rehabilitation of Arusha to Minjingu and Korogwe - Mkumbura - Same roads.

## **8.0 Wholesale, Retail Trade and Repairs**

This covers purchasing of domestic manufactured goods and imported merchandise for resale. The activity also covers repair of motor vehicles, motor cycles and personal and household goods.

*Gross Domestic Product, Third Quarter 2012*

---

---

This activity recorded a growth rate of 7.0 percent in the third quarter of 2012 compared to a growth rate of 6.6 percent in the third quarter of 2011. The growth was attributed to the increase in traded domestic manufactured goods and imports of merchandise. The index of deflated output for this activity derived from trade turnovers increased to 245 in the third quarter of 2012 from 229 in the corresponding quarter of 2011.

## 9.0 Hotels and Restaurants

This covers services provided to both domestic and international visitors. It includes accommodation services, food and beverages served to visitors.

Hotels and restaurants recorded a growth rate of 6.1 percent in the third quarter of 2012 compared to a growth rate of 5.3 percent in the corresponding quarter of 2011. The increase in growth was attributed to increase in the number of domestic and international visitors in hotels. The overall international bed occupancy index increased to 248 in the third quarter of 2012 from 235 in the corresponding quarter of 2011. The number of domestic hotel visitors increased to 169,703 in the third quarter of 2012 from 159,546 in the corresponding quarter of 2011. The number of

---

---

international hotel visitors increased to 205,522 during the third quarter of 2012 from 194,233 in the corresponding quarter of 2011.

## **10.0 Transport and Communication**

Transport covers transportation of passengers and goods, handling of cargo and storage services while communication covers telephone, posts and courier services.

The activity recorded a growth rate of 10.3 percent in the third quarter of 2012 compared to a growth rate of 11.6 percent in the corresponding quarter of 2011. The performance was attributed to the the number of passengers and goods; the volume of cargo handled and increased airtime used by mobile phone customers during the period.

## **11.0 Financial Intermediation**

This covers services provided by the Central Bank, commercial banks, bureau de changes and insurance companies.

The activity recorded a growth rate of 11.4 percent in the third quarter of 2012 compared to a growth rate of 11.0 percent in the

---

---

corresponding quarter of 2011. The performance was a result of increased levels of deposits and lending by commercial banks and the services by insurance companies.

## **12.0 Real Estates and Business Services**

Real estate covers renting of houses/structures for residential, commercial and storage purposes while business services covers the provision of professional services such as accounting and legal services.

The activity recorded a growth rate of 5.2 percent in the third quarter of 2012 compared to a growth rate of 5.9 percent in the corresponding quarter of 2011. The growth was due to the demand of renting services and the increase in the supply of renting facilities during the reference period.

## **13.0 Public Administration**

Covers provision of both collective and individual services by the government to the public. The government collects tax revenues according to the prevailing Financial Act which are in turn used to pay for services provided.

---

---

The activity recorded a growth rate of 5.6 percent in the third quarter of 2012 compared to a growth rate of 6.9 percent in the corresponding quarter of 2011. The decrease in growth was caused by low level of the government engaging new public servants during the quarter under review in 2012 compared to the third quarter in 2011.

#### **14.0 Education**

This covers services provided by public and private owned schools. It includes all levels of schools from pre-primary level to higher learning level.

The activity recorded a growth rate of 6.8 percent in the third quarter of 2012 compared to a growth rate of 9.4 percent in the similar quarter of 2011. The decrease in growth rate was caused by the decrease in the number of enrolled primary school pupils in 2012 compared to 2011.

#### **15.0 Health; Other Social, Community and Personal Services**

This covers services provided by both public and private owned health facilities. It includes dispensaries, health centres, district hospitals, regional hospitals, referral hospitals and the Muhimbili

---

---

National Hospital. Other social, community and personal services such as spiritual services and library services are also covered.

The activity recorded a growth rate of 4.8 percent in the third quarter of 2012 compared to a growth rate of 4.1 percent in the corresponding quarter of 2011. The growth was due to a slight increase in the provision of health facilities and improvement of other social, community and personal services to the public during the period under review.
