Foreword

This publication of Volume IV, which is titled “The Regional and District Census Data in Brief”, provides data on major characteristics of the Tanzania Population. The data on districts have been adopted from District Profiles while those on Regions have been derived from regional data. This document is aimed at serving two purposes: one, to provide the districts and regions with easy reference data for planning social and economic development activities. Two, to enable planners and policy makers, especially Members of Parliament, Members of the House of Representatives and Councilors to compare socio-economic development status of their districts with the socio-economic development status of other districts. The document aims at filling the gap in the knowledge of the socio-economic development status of other districts because the planners and policy makers of one district will not have access to the district profiles of other districts.

We would like to extend our thanks to all Government leaders at national, regional, district, ward/shehia, village and ‘vitongoji’ levels for ensuring that the 2002 Population and Housing Census was a success. Our thanks should also go to our consultants – both local and external for their technical assistance.

The success in carrying out the 2002 Population and Housing Census also depended on the generous material, financial and moral support provided by our development partners. We would therefore, like to take this opportunity to express our appreciation to the following development partners: the United Nations Population Fund (UNFPA), the Swedish International Development Agency (SIDA), the United Nations Development Programme (UNDP), the Government of Japan, the United States Agency for International Development (USAID), the Department for International Development (DFID), the World Bank, the United Nations Children’s Fund (UNICEF), the Norwegian Agency for Development (NORAD) and the Finnish International Development Agency (FINNIDA).

We would like to thank in a special way all Central Census Office staff members, Regional Census Coordinators, Regional Statistical Officers, District Census Executive Officers, selected primary school teachers and other Government staff members at all levels, for the role they played in the 2002 Population and Housing Census, specifically for their commitment and hard work. It is only through their diligence that we have been able to produce these data.

We welcome any comments regarding this and other publications on the 2002 Population and Housing Census. These should be channeled to the Director General, National Bureau of Statistics, P.O. Box 796, Dar es Salaam, email nbs.dg@raha.com, or to the Chief Government Statistician, P.O. Box 2321, Zanzibar, e-mail zanstat@zanlink.com.

Mr. Cletus P. B. Mkai,
Director General,
National Bureau of Statistics,
Dar es Salaam.

Dr. Damas K. Mbogoro,
Commissioner of Population Census,
Census Office,
Dar es Salaam.

Mr. Mohammed H. Rajab,
Chief Government Statistician,
Office of Chief Government Statistician
Zanzibar.

Mr. Mohammed F. Mohammed,
Census Commissar,
Census Office.
Zanzibar.

June 2004

Explanatory Notes

1. Total Population Figure

The total population figure is the same as the one appearing in Volume II, "Age and Sex Distribution" document and differs slightly from that produced earlier in the 2002 Population and Housing Census General Report of January 2003. At the national level there is a difference of 125,639 persons or a difference of 0.0036 percent. This difference has been found to be evenly distributed among all the regions and districts. This minor difference is a result of duplicate entries. It was discovered during further data validation that some entries had been picked as correct entries while they were not and hence had to be deleted in the final figures.

2. Estimates of Intercensal Growth Rates for Regions and Districts

Since the last census of 1988 there have been boundary changes for Arusha Region due to the creation of Arusha and Manyara Regions in 2002. There were also boundary changes for 17 districts, which were split as follows:

Kiteto District:	Current Kiteto and Simanjiro Districts
Mbulu District:	Current Mbulu and Karatu Districts
Mbeya Rural District:	Current Mbeya Rural and Mbarali Districts
Songea Rural District:	Current Songea Rural and Namtumbo Districts
Iringa Rural District:	Current Iringa Rural and Kilolo Districts
Newala District:	Current Newala and Tandahimba Districts
Lindi Rural Districts:	Current Lindi Rural and Ruangwa Districts
Kisarawe District:	Current Kisarawe and Mkuranga Districts
Kahama District:	Current Kahama and Bukombe Districts
Shinyanga Rural District:	Current Shinyanga Rural and Kishapu Districts
Bariadi District:	Current Bariadi and Meatu Districts
Mpwapwa District:	Current Mpwapwa and Kongwa Districts
Kwimba District:	Current Kwimba and Misungwi Districts
Mwanza District:	Current Nyamagana and Ilmela Districts
Handeni District:	Current Handeni and Kilindi Districts
Morogoro Rural District:	Current Morogoro and Mvomero Districts
Tabora Rural District:	Renamed Uyui District

In order to get the population growth rates between 1988 and 2002 estimates had to be made based on the assumption that the wards constituting the region or district in question as found in 2002 had the same boundaries in 1988.

3. Definition of Some of the Terms

?? **Sex Ratio:** Number of males per 100 females

?? **Age Dependency Ratio:** The percent of youths aged less than 15 years plus the percent of persons aged 65 years and above divided by the percent of persons aged 15-64 multiplied by 100.

?? **Marital Status:**

- ***Never Married:*** Persons who have remained single all their lives excluding persons who have lived with another person and are now living alone.
- ***Married:*** Persons who were formally married irrespective of the type of marriage, which may have been; customary, civil or religious marriage.
- ***Living Together:*** Persons in consensual unions or socially recognized stable unions.
- ***Separated:*** Persons who were once married but are now living apart. Those who live apart because their spouses are employed far away from home or for similar reasons are considered to be married.
- ***Divorced:*** Persons who were once married but their marriages were permanently terminated and have not remarried since then. Note that in polygamous marriages the divorce of one or more wives does not categorize the husband as divorced if he still lives with the other wife (wives).
- ***Widowed:*** Persons whose marriages were terminated by death and have not remarried since. Note that in polygamous marriages the death of one or more wives does not make the husband a widower if he still has other wife (wives).

?? **Child Orphans:** Children aged 0-17 years who have lost both parents

?? **Economic Activity:**

- ***Working:*** Comprises all persons including family workers who worked during the one-year period prior to the census date.
- ***Not working but looking for work:*** Comprises all persons, who during the one-year period, were not working but were seeking work for pay including those who never worked before.
- ***Not working but not looking for work:*** Comprises all persons, who during the one-year period were not working but were not seeking work for pay including those who never worked before.

- ***Student:*** Refers to persons of either sex, who were attending any regular education institution, public or private for systematic instruction at any level of education.
- ***Home Maker:*** Refers to persons of either sex, not economically active, who were engaged in household duties in their own home, i.e. housewives and other relatives responsible for the care of their homes and children.
- ***Retired/too old:*** Refers to persons of either sex, not economically active, who were receiving pension from former activities or who were too old to be economically productive. It also means persons of either sex, who were either physically or mentally handicapped.
- ***Unable to work:*** Refers to persons not falling in any of the abovementioned categories. According to the International Convention of Labour definition, labour force is composed of all persons aged 10 years and above.

4. Coverage

This publication covers the following topics:

- (a) Age and Sex distribution
- (b) Disability
- (c) Marital Status
- (d) Survival of Parents
- (e) Literacy
- (f) Education
- (g) Economic Activities
- (h) Household and housing conditions

Topics on migration, fertility and mortality are not covered in this publication. They will be covered separately in other publications.
