H. E. Dr. Samia Suluhu Hassan
President of the United Republic of Tanzania

“The year 2022 was a time to review our population figures to ensure right statistics for better economic planning and performance. I am happy that we successfully conducted our National Census in August 2022. It was an exemplary exercise in Africa, as for the first time it combined counting individuals and buildings at an acceptable international standard”. H.E. Dr. Samia Suluhu Hassan, the President of the United Republic of Tanzania, at the New Year’s Diplomatic Sherry Party Hosted for Heads of Diplomatic Missions and International Organisations January 2023, State House, Dar es Salaam.

Preface

The 2024 Tanzania in Figures booklet gives clear insights into Tanzania's performance in economic, social, environmental, and political spheres. This booklet presents data series from 2020 to 2024.

The booklet provides summary of aggregated data and contains information from various official statistical publications compiled by the National Bureau of Statistics (NBS), and other Government Ministries, Departments and Agencies. The statistical information presented is useful for planning, monitoring, and evaluating various development programmes at all administrative levels with evidence-based statistics.

The NBS, as a coordinator and producer of official statistics in Tanzania, appreciates the contributions made by various stakeholders in statistics for supplying input data for the compilation of this booklet. To participate effectively in strengthening the National Statistical System (NSS), we urge further cooperation in updating and compiling the forthcoming editions of similar booklets and other statistical publications.

The latest figures for 2024 presented in this booklet for some indicators are provisional, and some indicators have been revised according to the NBS revision policies. Also, information in some tables is extracted from censuses and surveys, which are normally conducted over a period of every five or ten years. The data gaps in this booklet that are attributed to the census and surveys shall be provided in the respective census and surveys reports as they become available.

Comments and suggestions are welcome from all stakeholders to enrich the next edition of Tanzania in Figures.

The soft copy of this booklet is also available on the NBS website; www.nbs.go.tz. For more information on the published statistics, please visit NBS library and the website.

NEW INFORMATION IN 2023

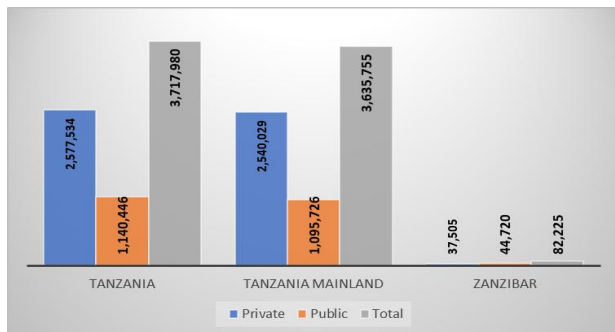

Formal Sector Employment and Earning Survey (EES), 2022/23

The 2022/23 Formal Employment and Earnings Survey (EES) was jointly conducted by the National Bureau of Statistics (NBS) and the Office of the Chief Government Statistician Zanzibar (OCGS). This marked the first annual survey collaboratively carried out by the two entities representing Tanzania Mainland and Zanzibar under the United Republic of Tanzania. The survey provides an overview of the employment and earnings status as of June 30, 2023. The primary objective of the survey is to deliver comprehensive information on employment and earnings across various sectors of the economy. It is designed to serve as a proxy for estimating labor market indicators, thereby supporting policy formulation, economic planning, and the assessment of sectoral contributions to the Gross Domestic Product (GDP). In Tanzania Mainland, the survey covers three main categories of formal establishments in both the public and private sectors: all public sector establishments, all registered private establishments with at least 50 employees, and a sample of registered private establishments with fewer than 50 employees. In Zanzibar, all formal establishments in both the public and private sectors are included in the enumeration.

Summary results from EES 2023/24

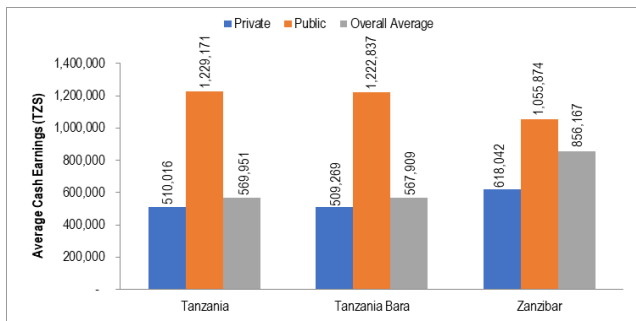

The total formal sector employment in the United Republic of Tanzania is 3,717,980. There are 3,635,755 employees in Tanzania Mainland and 82,225 employees in Tanzania Zanzibar. The results further indicate that, private sector is a dominant employer in the formal sector compared to public sector.

Distribution of Total Employees by Sector of Employment; Tanzania, 2022/23 EES

The findings indicate that overall monthly average cash earnings for employees in formal sector in the United Republic of Tanzania are about TZS 569,951. It is also indicated that monthly average cash earnings for employees in the public sector are higher than those in the private sector. This information can help the relevant authorities in periodical reviews of wage structure in respective sector.

1.0 Background

Tanganyika became independent and a republic on 9th December 1961 and 1962 respectively. Zanzibar became independent on 10th December 1963 and the People's Republic of Zanzibar was established after the Revolution on 12th January 1964. The two sovereign states formed the United Republic of Tanzania on 26th April 1964.

In 2021, Dr. Samia Suluhu Hassan became the first female President in Tanzania and the first in East Africa when she was sworn in as the country's' sixth president in line with the Constitution of the United Republic of Tanzania. This came after the unexpected passing of the late Dr. John Pombe Joseph Magufuli, a member of the Chama cha Mapinduzi (CCM) party and Tanzania's President at that time.

Dodoma is the capital city while Dar es Salaam is the major commercial city. The official currency is Tanzanian Shilling (TZS) and the national language is Kiswahili. However, English is also used as an official language.
