## **Preface**

Gross Domestic Product (GDP) compilation in Mainland Tanzania is consistent with the international guidelines specifically the **System of National Accounts 2008** (2008 SNA), and the **International Standard of Industrial Classification Revision. 4** (ISIC Rev 4) used to classify all economic activities. The use of internationally agreed standards makes it possible to compare findings from Mainland Tanzania with other countries' Quarterly Gross Domestic Product (QGDP).

Findings in these reports facilitate frequent and appropriate policy interventions using available reliable and timely information on recent short-term economic developments. The term “quarter” in this report refers to a period of three months of the Calendar Year (January – March, April – June, July- September and October – December). The main data sources used in the compilation of these reports were administrative data from all economic activities undertaken during the reference period.

The third QGDP presents total value of goods and services derived from all economic activities performed in Mainland Tanzania for the period of July to September 2025. The third QGDP in this report is presented in absolute terms at current prices and constant 2015 prices. Moreover, other items presented are shares to GDP and growth rates by economic activity presented as percentages.

I sincerely thank all our stakeholders in both the public and private sectors for providing the key data that made this report possible. The National Bureau of Statistics is committed to continuing this partnership to improve our statistical system and the availability of essential data. This work is vital for accurately tracking economic progress and national development.

Dr. Amina S. Msengwa  
**Statistician General**

## **1.0 Introduction**

This report presents Quarterly Gross Domestic Product (QGDP) being one of economic indicators that shows trend of performance for all economic activities at current and constant prices for Mainland Tanzania. The QGDP facilitates frequent and appropriate policy interventions by providing reliable and timely reports on recent short-term economic developments.

### **1.1. World Economy**

The World Economic Outlook (WEO) report released by the International Monetary Fund (IMF) in October 2025 indicates that the global economy is projected to grow at 3.2 in percent in 2025. This represents an increase of 0.2 percentage points compared to the 3.0 percent growth rate projected in the WEO report released in July 2025. The upward revision in global growth is attributed to ongoing improvement in trade conditions including the decline in the actual average effective U.S. tariff rates to the levels announced in April. This development has contributed to easing pressures on international trade flows.

### **1.2. Sub-Saharan Africa**

According to WEO report of October 2025, economic growth in Sub-Sahara countries is projected to grow at 4.1 percent in 2025, compared to 4.0 percent projected in July 2025 WEO report. South Africa's economy is projected to grow by 1.1 percent in 2025 compared to 1.0 percent estimated in July 2025 WEO report, representing the upward revision of 0.1 percentage points. Meanwhile, Nigeria's economic growth is projected at 3.9 percent, higher than 3.4 percent estimated in July 2025 WEO report.

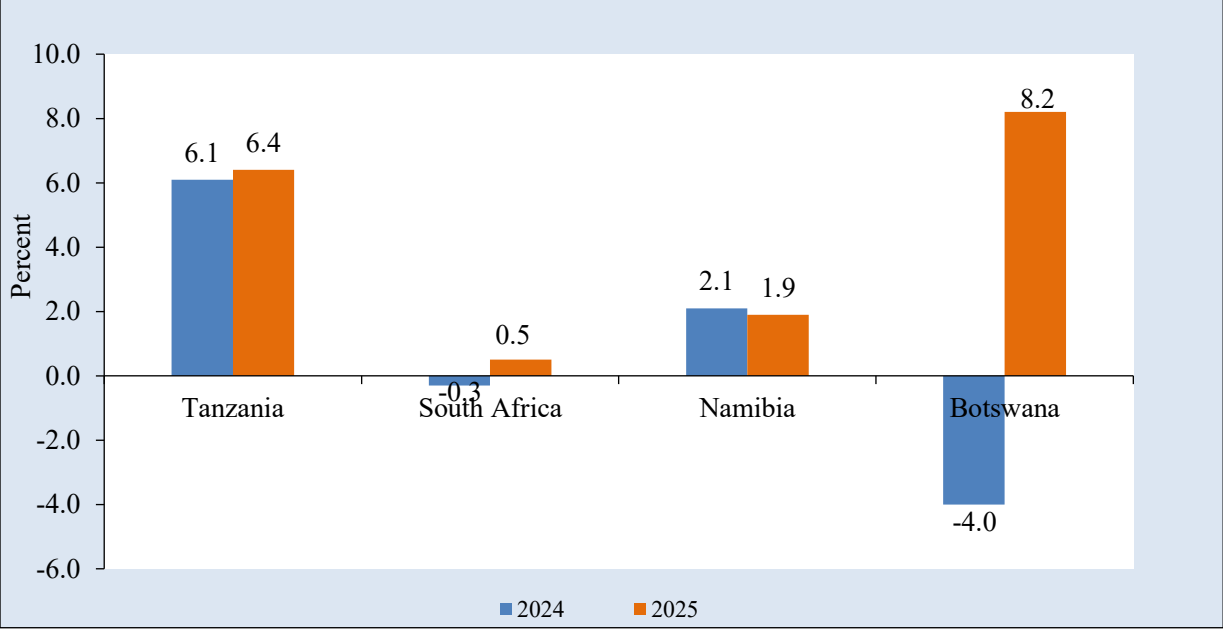

.

### **1.3. Southern Africa Development Community**

Assessment of economic growth of selected countries in the Southern African Development Community (SADC) for the period of July to September 2025 indicated that South Africa's economy grew by 0.5 percent, up from negative 0.3 percent growth recorded in 2024. Namibia's economy expanded by 1.9 percent in the third quarter of 2025, from 2.1 percent observed in the corresponding period in 2024. 1.5. GDP Compilation in Mainland Tanzania

The National Bureau of Statistics is also implementing the National Accounts Revision Policy that became operational in 2019. The policy allows publication of provisional results subject to availability of new or revised quarterly and/or annual data. Gross Domestic Product estimates have been aligned to the revised balance of payment statistics released by Bank of Tanzania for the period from 2017 to 2024.

The compilation of National Accounts Statistics for the third quarter GDP (July – September) 2025 utilized data collected from all economic activities conducted in the country.

1.5.1 Third Quarter GDP Growth Rate 2025

During the period under review, the third quarter Gross Domestic Product (QGDP) 2025 at current prices in absolute terms increased to TZS 53.7 trillion, from TZS 48.7 trillion recorded in the similar quarter in 2024. Furthermore, GDP at constant 2015 prices increased to TZS 40.0 trillion in the third quarter 2025, from TZS 37.6 trillion registered in the corresponding period in 2024, equivalent to 6.4 percent growth (Figure 3).
