Preface

Gross Domestic Product (GDP) compilation in Mainland Tanzania is consistent with the international guidelines, specifically the *System of National Accounts 2008 (2008 SNA)*, and the *International Standard of Industrial Classification Revision 4 (ISIC Rev 4)* used to classify all economic activities. The use of internationally agreed standards makes it possible to compare findings from Mainland Tanzania with other countries' Quarterly Gross Domestic Product (QGDP).

Findings in these reports facilitate frequent and appropriate policy interventions using available reliable and timely information on recent short-term economic developments. The calendar year is structured as follows: First quarter – January to March; Second quarter – April to June; Third quarter – July to September; and Fourth quarter – October to December. The sources of information include administrative data covering all economic activities undertaken during the reference period.

The fourth QGDP report presents the total value of goods and services by type of economic activity at current prices and at constant 2015 prices. Moreover, other items presented are shares to GDP and growth rates by economic activity, presented as percentages.

I sincerely thank all our stakeholders in both the public and private sectors for providing the key data that made this report possible. The National Bureau of Statistics is committed to continuing this partnership to improve our statistical system and the availability of essential data. This work is vital for accurately tracking economic progress and national development.

Dr. Amina S. Msengwa
Statistician General

1.0 Introduction

The Quarterly Gross Domestic Product (QGDP) being one of the economic indicators that provide detailed information on the performance of all economic activities within a country, The QGDP facilitates frequent and appropriate policy interventions by providing reliable and timely reports on recent short-term economic developments.

1.1 World Economy

The World Economic Outlook (WEO) report released by the International Monetary Fund (IMF) in January 2026 indicates that the global economy is projected to grow at 3.3 percent in 2026. This represents an increase of 0.1 percentage points compared with the 3.2 percent growth rate projected in the WEO report released in October 2025. The upward revision in global growth is attributed to headwinds from shifting trade policies being offset by tailwinds from surging investment related to technology, including artificial intelligence (AI). In addition, improved conditions in financial markets, along with economic policies that have continued to support aggregate demand, have strengthened consumption and investment.

Furthermore, the economic performance in major economies, particularly the United States and China, has significantly contributed to the upward revision of growth.

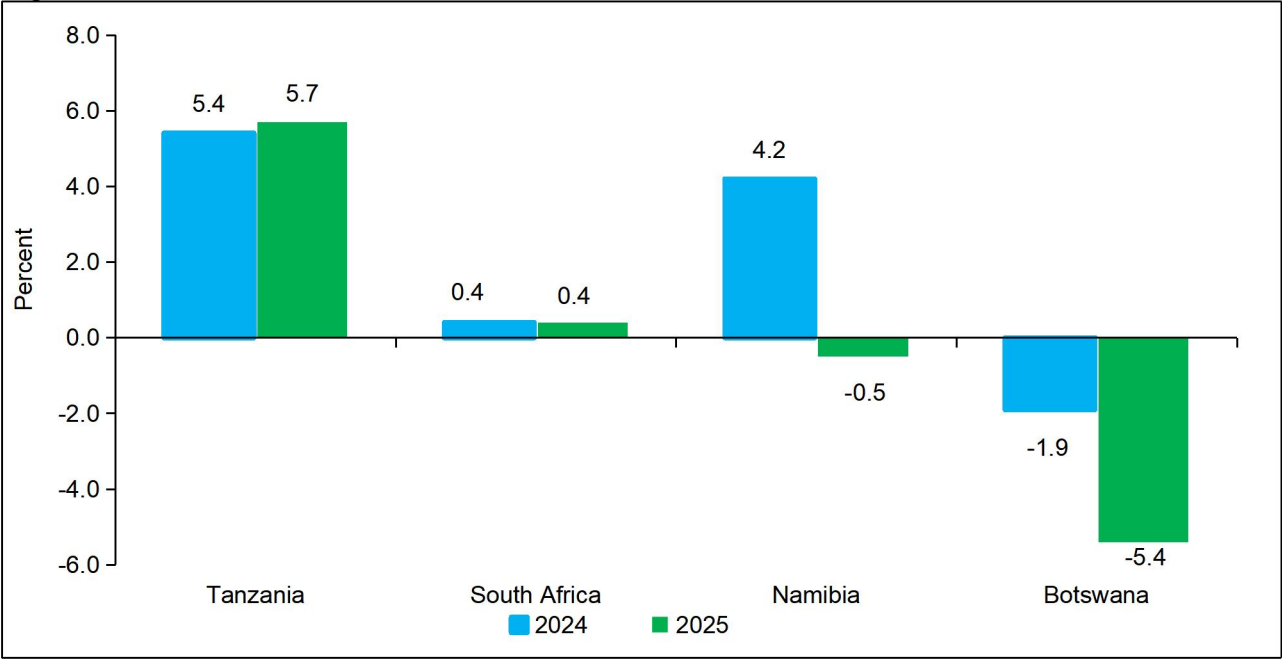

1.3 Sub-Saharan Africa

According to the WEO report of January 2026, economic growth in Sub-Sahara countries is projected to grow at 4.4 percent in 2025, compared with 4.1 percent projected in the October 2025 WEO report, representing an upward revision of 0.3 percentage points. South Africa's economy is projected to grow by 1.3 percent in 2025 compared with 1.1 percent estimated in the October 2025 WEO report. Meanwhile, the January 2026 WEO report indicates that Nigeria's economic growth is projected at 4.2 percent, higher than 4.1 percent estimated in the October 2025 WEO report.

1.4 Southern Africa Development Community

Assessment of economic growth of countries in the Southern African Development Community (SADC) for the period October to December 2025 indicated that South Africa's economy grew by 0.4 percent, which is the same growth rate recorded during the corresponding period in 2024. Namibia's economy declined by 0.5 percent in the fourth quarter of 2025 compared with 4.2 percent observed in the corresponding period in 2024. The economic growth of Botswana decreased by 5.4 percent in the fourth quarter of 2025 compared with negative growth of 1.9 percent during the same period in 2024. Tanzania's economy grew to 5.7 percent in the fourth quarter of 2025, compared with a growth rate of 5.4 percent recorded during the same period in 2024. Furthermore, the trend of economic growth for other member countries of the Southern African Development Community for the period October to December 2025 has not yet been published on their websites by the respective national statistics offices.

Source: Websites of Respective National Statistical Offices

1.5 East African Community

The East Africa Community partner States that have published reports on economic performance during the fourth quarter of 2025 indicate a sustained strengthening of positive economic growth. During the period under review, the economic growth rates of Rwanda increased to 11.2 percent compared with 4.2 percent during the same period in 2024. The economy of Uganda grew by 8.5 percent, compared with a growth rate of 5.4 percent recorded during the same period in 2024. Reports on economic performance for the remaining East Africa Community Partner States for the fourth quarter of 2025 have not yet been published on the websites of the respective National Statistical Offices (Figure 2).

1.6 GDP Compilation in Mainland Tanzania

The National Bureau of Statistics is also implementing the National Accounts Revision Policy that became operational in 2019. The policy allows the publication of provisional results, subject to the availability of new or revised quarterly and/or annual data. Gross Domestic Product estimates have been aligned with the revised balance of payments statistics released by the Bank of Tanzania for the period from 2017 to 2024.

The compilation of National Accounts Statistics for the fourth-quarter GDP (October – December) 2025 utilized data collected from all economic activities conducted in the country.

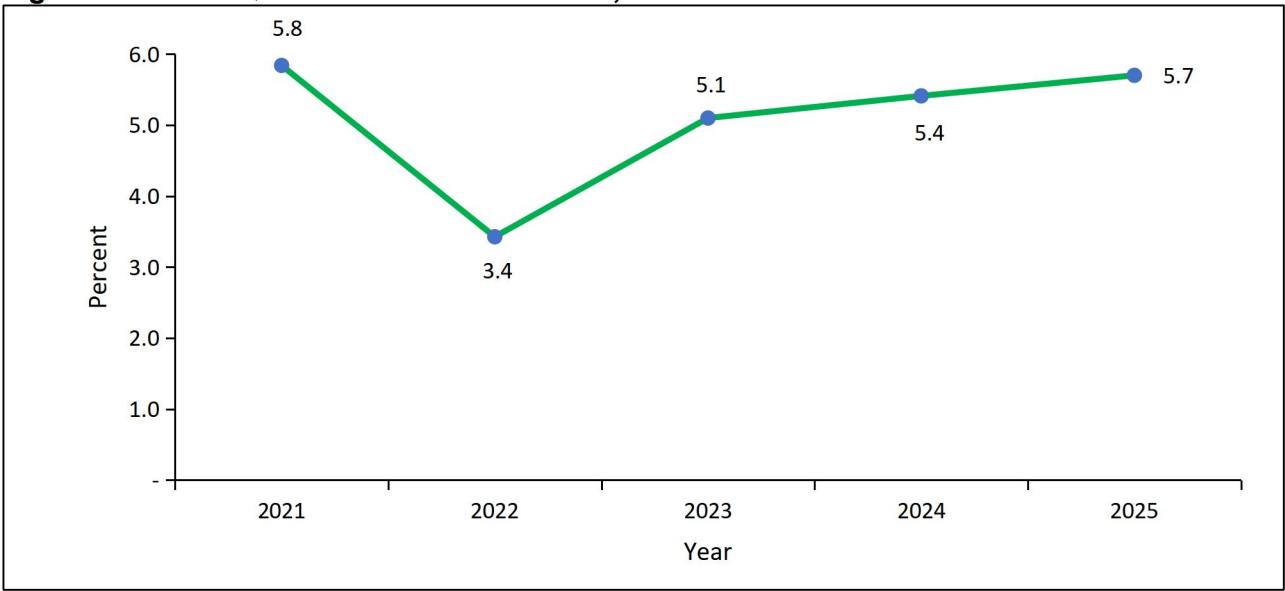

1.6.1. Fourth-Quarter GDP Growth Rate 2025

During the period under review, the fourth-quarter Gross Domestic Product (QGDP) 2025 at current prices,, in absolute terms, increased to TZS 62.5 trillion, from TZS 56.4 trillion recorded in the similar quarter in 2024. Furthermore, GDP at constant 2015 prices increased to TZS 44.4 trillion in the fourth quarter of 2025, from TZS 42.0 trillion registered in the corresponding period in 2024 (**Table1**), equivalent to a growth rate of 5.7 percent (**Figure 3**).

Table 1: Gross Domestic Product (TZS Million), Fourth Quarter 2021–2025

Year	Market Prices	Constant Prices (2015)
2021	42,117,295	36,699,154
2022	46,253,804	37,956,359
2023	49,893,259	39,891,558
2024	56,433,470	42,049,933
2025	62,476,735	44,443,887

Figure 3: Fourth Quarter GDP Growth Rates, 2021 – 2025

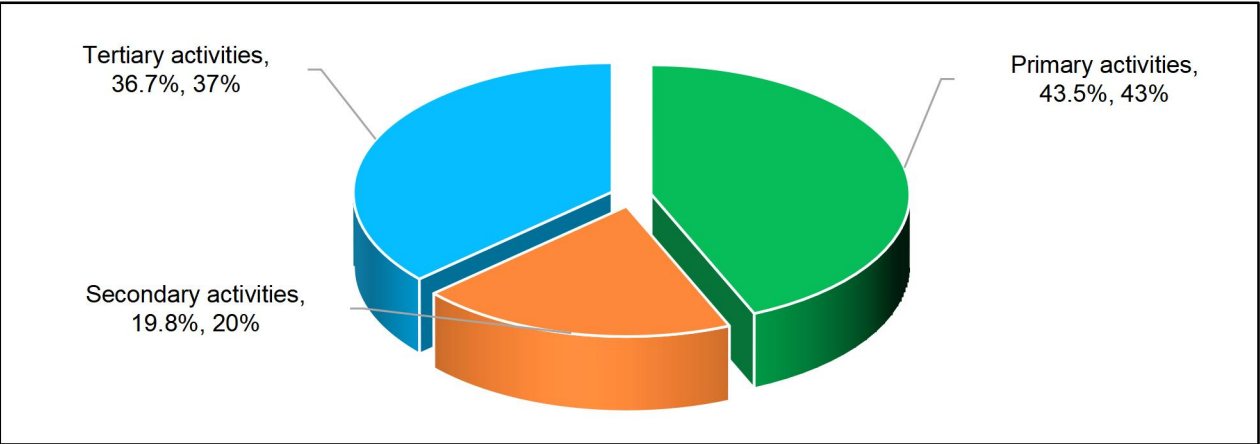

Source: National Bureau of Statistics, 2025

1.6.2 Share of GDP by Broad Economic Classification

Analysis of activities based on Broad Economic Classification (BEC) revealed that during the period under review, **Primary Activities** accounted for the largest share of **43.3 percent**, followed by **Tertiary Activities (36.8 percent)** and **Secondary Activities (19.9 percent)**. Note that shares to GDP were compiled before adjustment for taxes.

Figure 4: Share to GDP by Broad Economic Activities at Current Prices 2025

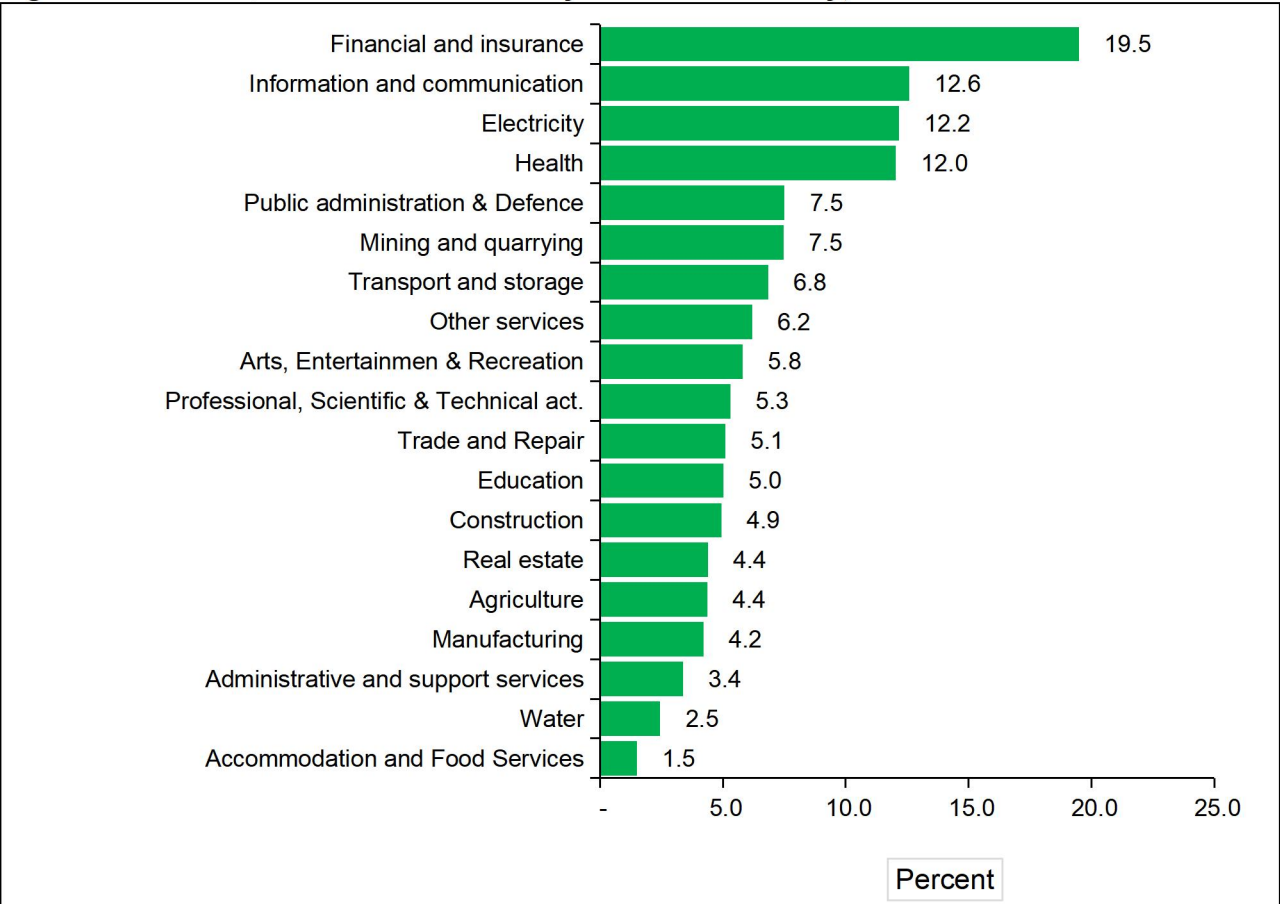

Source: National Bureau of Statistics, 2025

1.6.3. Fourth-Quarter GDP Growth by Economic Activities, 2025

During the period from October to December 2025, GDP at constant prices increased by 5.7 percent from 5.4 percent growth recorded in the corresponding period in 2024. Economic activities that recorded significant growth rates were: Financial and Insurance (19.5 percent); Information and Communication (12.6 percent); Electricity (12.2 percent); Health (12.0 percent); Public administration & Defence (7.5 percent); and Mining and Quarrying (7.5 percent); (Figure 5).

Figure 5: Fourth Quarter Growth Rates by Economic Activity, 2025

Source: National Bureau of Statistics, 2025

1.6.4 Contribution to Growth

All economic activities that took place between October and December 2025 contributed differently to the growth of 5.7 percent. During the reference period, the Agriculture activity recorded the largest contribution to growth of 20.5 percent, followed by Financial and Insurance (13.8 percent); Construction (11.2 percent); Transport and storage (8.4 percent); Trade and Repair (7.6 percent); and Mining and Quarrying (7.2 percent).

2.0. Sectoral Performance

This section provides highlights of the economic activities carried out and their corresponding growth rates between the fourth quarter of 2025 and 2024. Activities outlined in the sub-sections include crop production, livestock, forestry, and fishing. Other economic activities covered are mining and quarrying, manufacturing, electricity, water supply, and construction. In addition, the section outlines other sectors such as trade and repairs; transportation and storage; accommodation and food services; information and communication; financial and insurance services; real estate; professional, technical and scientific services; public administration and defense-related services; as well as education, human health, arts, entertainment and recreation; and other services activities.

2.1. Agriculture, Forestry and Fishing

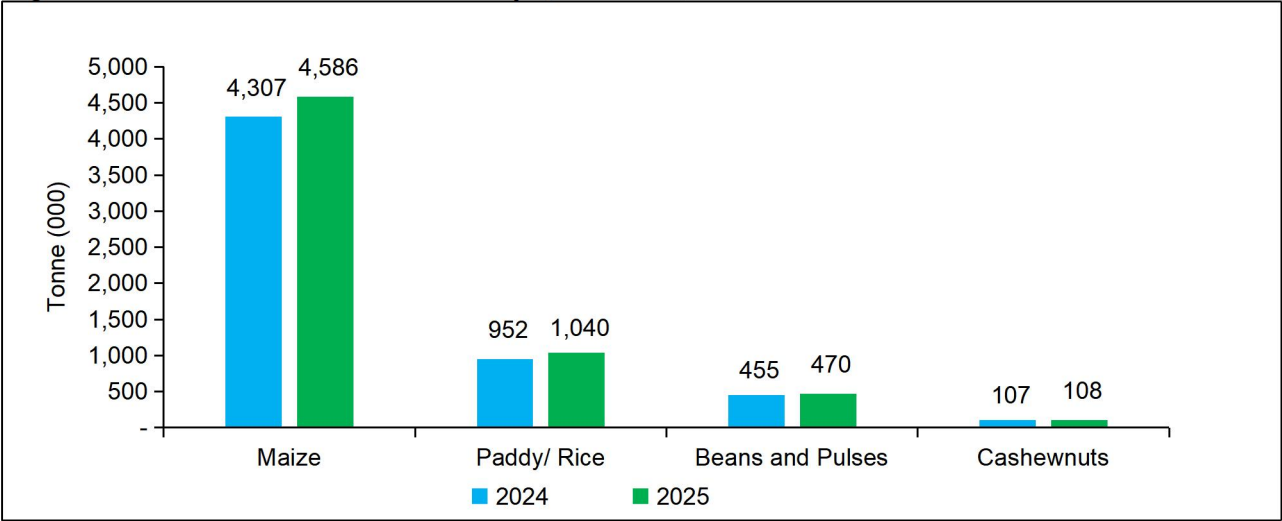

This sector includes the exploitation of vegetables and animal natural resources that comprise growing crops, raising and breeding animals, harvesting timber and other plants, animals or animal products from a farm or their natural habitats. During the period between October and December 2025, Agriculture, Forestry and Fishing increased by 4.4 percent compared with the 4.2 percent achieved during the same period in 2024.

2.1.1 Crops

Major crops covered include maize, paddy, sorghum/millet, other cereals, cassava, round potatoes, sweet potatoes, beans and other pulses, dried oilseeds, other vegetables, bananas, other fruits, cashew nuts, coffee, cotton, tea, tobacco, and other food and cash crops.

The crops sub-activity expanded by 4.3 percent in the fourth quarter of 2025 compared to 4.2 percent observed in the corresponding quarter in 2024. The growth was attributed to an increase in crop production, which benefited from the use of enhanced technology and inputs, including extension services.

Figure 6: Production of Selected Crops, Fourth Quarter 2024 and 2025

Source: National Bureau of Statistics, 2025

Crops that contributed the most to the growth of crop production activity during the fourth quarter of 2025 included maize, paddy, beans and pulses, and cashew nuts. During the reference period, maize production increased by 7.0 percent from 4,307 thousand tonnes in 2024 to 4,586 thousand tonnes in 2025, Production of paddy/rice rose by 9.3 percent, from 952 thousand tonnes in 2024 to 1,040 thousand tonnes in 2025. Furthermore, beans and pulses production increased by 3.3 percent, from 455 thousand tonnes in 2024 to 470 thousand tonnes in 2025. Similarly, cashew nuts production grew by 0.9 percent, from 107 thousand tonnes in 2024 to 108 thousand tonnes in 2025.

2.1.2. Livestock

The activity covers livestock rearing activities, including improved and indigenous cattle; goats; sheep; donkeys and horses; pigs and rabbits; indigenous and commercial chicken; and other poultry.

During the period October to December 2025, livestock activity recorded a growth rate of 5.0 percent, similar to the growth rate observed in the corresponding period in 2024. The demand for livestock-based products, as well as increased awareness of food nutrition, is attributed to this growth.

2.1.3. Forestry and Logging

Forestry and Logging activity covers the production of timber, charcoal, fuel wood, and logs, twigs, faggots (bundles of branches) and non-wood forest products. Forestry activity expanded by 3.3 percent in the fourth quarter of 2025 compared with 2.9 percent observed in the corresponding quarter of 2024. This performance was largely attributed to the management of forest products and government interventions aimed at promoting sustainable harvesting and management of forest products.

2.1.4. Fishing

Fishing activity covers the harvest of fishery resources from marine or freshwater environments. Fishing activity recorded a growth rate of 3.1 percent in the fourth quarter of 2025 compared with 2.3 percent registered in the corresponding quarter in 2024. The

growth was attributed to Government efforts to ensure sustainable fish catch and fish products.

2.2. Mining and Quarrying

Mining and Quarrying Mining and quarrying include the activities of extraction of minerals occurring naturally as solids (coal and ores), liquids (petroleum) or gases (natural gas). Extraction can be from underground, on the surface mining or well operation. It also includes supplementary activities aimed at preparing the crude materials for marketing, for example, crushing, grinding; cleaning, drying, sorting, concentrating ores, liquefaction of natural gas and agglomeration of solid fuels. The units located nearby often accomplish the operations.

Mining and quarrying activity is divided into four industries, which are:

- i. Mining of coal, lignite, and extraction of peat.
- ii. Crude petroleum and natural gas.
- iii. Mining of metal ores; and
- iv. Other mining and quarrying.

The activity grew by 7.5 percent in the fourth quarter of 2025, compared to the 8.5 percent recorded during the same quarter in 2024. The changes were due to the increase in production for some minerals, including Gold, Silver, Phosphate, Limestone, Pozzolana and Iron (**Table 1**).

Table 2: Types of Minerals with Increased Production, Fourth Quarter of 2024 and 2025

Type of Mineral	Unit	Fourth Quarter	
		2024	2025
Gold	Kg	17,637	17,685
Silver	Kg	226	973
Phosphate	Tons	6,602	16,350
Limestone	Tons	2,914,803	3,322,380
Pozzolana	Tons	112,636	213,184
Iron	Tons	12,253	33,060

Source: Ministry of Minerals, 2025

2.3 Manufacturing

Manufacturing activity involves physical or chemical transformation of materials, substances, or components into final or semi processed goods. The materials include products of agriculture, forestry, fishing, mining and quarrying as well as products of other manufacturing activities.

The activity recorded a growth rate of 4.2 percent in the fourth quarter of 2025 compared to 3.9 percent registered in the corresponding quarter in 2024. The growth was attributed to an increase in the production of manufactured goods.

2.4 Electricity, Gas, Steam and Air Conditioning Supply

The activity covers provision of electric power and natural gas, through permanent infrastructure (network) of lines, mains, and pipes. Specifically, the activity involves generation of electricity mainly from hydro, thermal and gas sources. It also includes electricity transmission and distribution activities. The primary sources of electricity generation data include the power generation companies such as TANESCO.

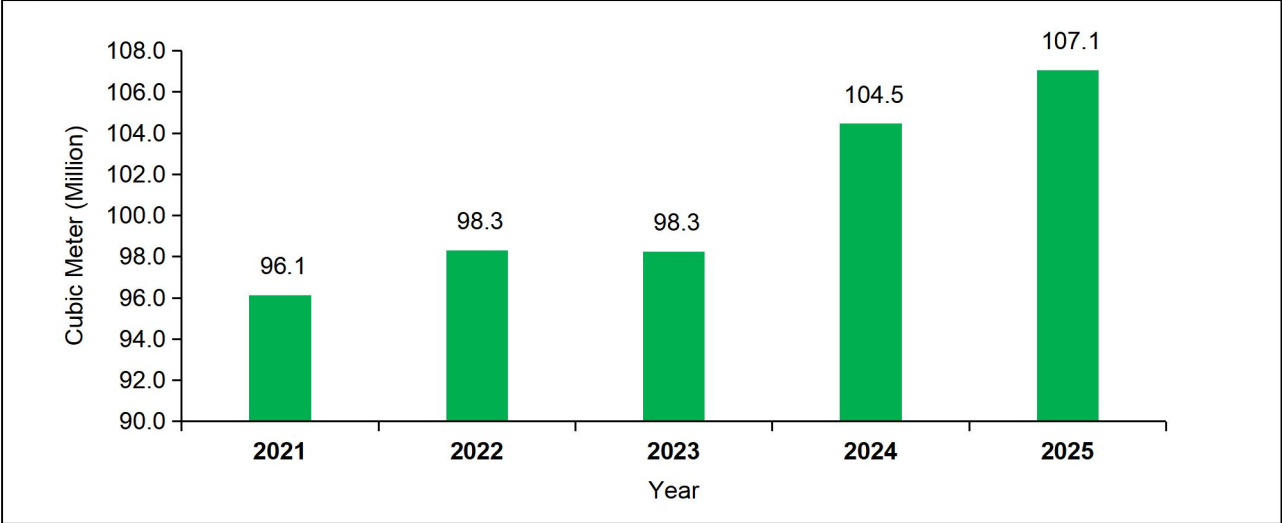

The growth of electric generation activities depends on the amount of electricity produced and distributed to customers. During the fourth quarter of 2025, electric generation activities increased by 12.2 percent compared to 23.9 percent in the similar quarter of 2024. The growth was largely attributed to electricity generation from solar power plants, electricity purchased from Kenya and the continued generation of electricity at the Julius Nyerere Dam.

2.5 Water Supply and Sewerage

The activity includes collection and purification of water for water supply purposes, desalting sea water to produce water as the principal product of interest and collection of water directly from wells for use by water supply companies or used on own account in agriculture or households. It also includes water distribution and the collection of wastewater activities.

The indicator for the growth of water supply activity is the quantity of water produced. During the reference period, the quantity of water produced increased to 107.1 million cubic meters from 104.5 million cubic meters recorded in the similar quarter in 2024. The activity grew at a rate of 2.5 percent in the fourth quarter of 2025 from 5.9 percent recorded in the corresponding quarter in 2024 (Figure 7).

Figure 7: Water Production, Fourth Quarter 2021 – 2025

Source: Energy and Water Regulatory Authority, 2025

2.6 Construction

This activity includes general construction and specialized construction activities for buildings and civil engineering works. It includes new work, repair, additions, and alterations, the erection of prefabricated buildings or structures on the site, and construction of a temporary nature.

General construction deals with construction of entire dwellings, office buildings, stores, and other public and utility buildings, farm buildings, etc. It also includes construction of civil engineering works such as motorways, streets, bridges, tunnels, railways, airfields, harbours and water projects, irrigation systems, sewerage systems, industrial facilities, pipelines, and electric lines, sports facilities, etc.

During the fourth quarter of 2025, construction activity recorded a growth rate of 4.9 percent compared with 3.3 percent in the corresponding quarter of 2024. Growth of construction activities is assessed based on domestically produced goods as well as imported materials used in construction activities. The growth was attributed to an increase in local production of construction materials, including cement and iron steels.

2.7 Wholesale and Retail Trade; Repair of Motor Vehicles, Motorcycles and Personal and Household Goods

The activity includes wholesale and retail sales (sale without transformation) of any type of goods, as well as rendering services incidental to the sale of merchandise. It also includes repair of motor vehicles and the installation and repair of personal and household goods. The activity involves buying and selling of goods.

During the fourth quarter of 2025, the activity recorded a growth rate of 5.1 percent compared to 5.4 in the fourth quarter of 2024. The growth was due to an increase in goods traded for agriculture, livestock, fishing, mining and quarrying, manufactured, and imported goods.

2.8 Transport and Storage

This activity includes the provision of passenger or freight transport, whether scheduled or not, by rail, pipeline, road, water, or air, and associated activities such as cargo handling, storage, etc. The activity also includes renting transport equipment with a driver or operator, and postal and courier activities.

The activity expanded by 6.8 in the fourth quarter of 2025 compared to 1.7 percent registered in the similar quarter in 2024. The growth was attributed to an increase in cargo tonnage and the number of passengers transported by road and Standard Gauge Railway transport services.

2.9 Accommodation and Food Services

This activity includes the provision of short-stay accommodation for visitors and other travelers, and the provision of complete meals and drinks fit for immediate consumption. The amount and type of supplementary services provided within this section can vary widely.

In the fourth quarter of 2025, Accommodation and food services recorded a growth rate of 1.5 compared to 5.7 percent observed in the corresponding quarter in 2024. The growth was attributed to a decrease in the number of tourist arrivals. During the period under review, the number of tourist arrivals decreased by 3.1 percent to 562,971 from 581,254 tourists recorded during the same period in 2024.

2.10 Information and Communication

The activity covers publishing activities, motion picture, video, and television programming production, sound recording and music publishing, programming and broadcasting activities, e.g., radio and television broadcasting, telecommunications, computer programming, consultancy and related activities, and information service activities, e.g., data processing and news agencies.

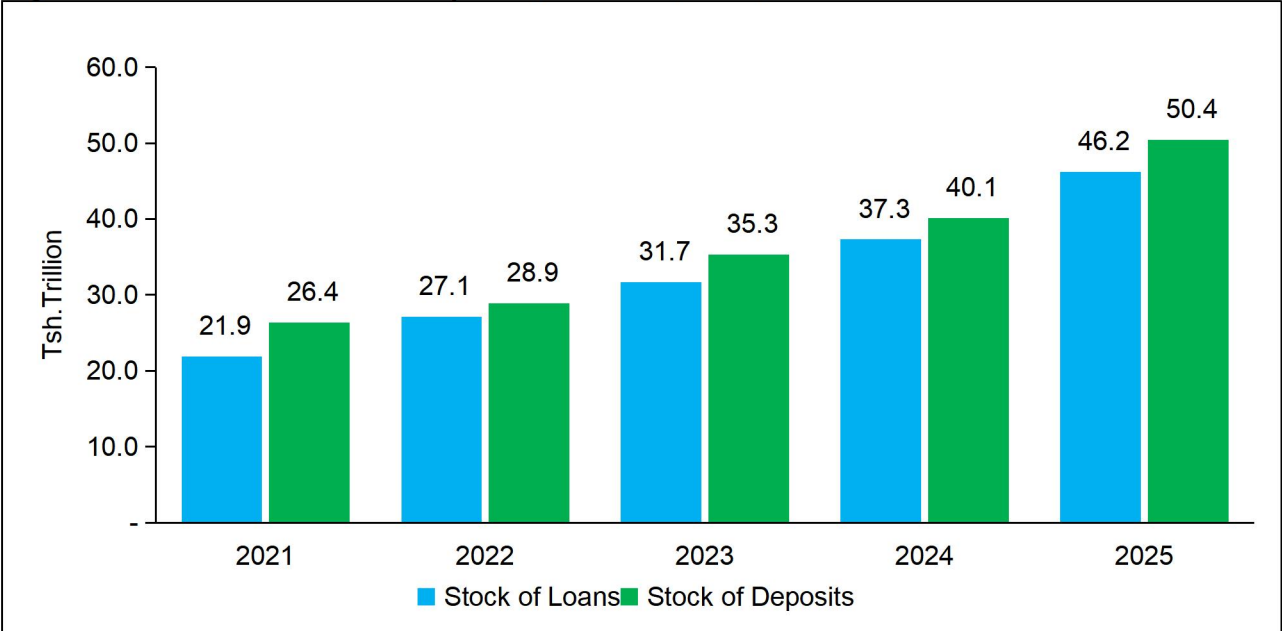

The activity recorded a growth rate of 12.6 percent in the fourth quarter of 2025 compared to 15.1 percent in the same quarter of 2024. The growth rate was attributed to an increase in the number of voice traffic per minute; the number of short message services traffic (SMS); the average number of mobile money subscribers; and the expansion of broadcasting and internet services in the country.

2.11 Financial and Insurance Services

The activity covers financial services, insurance and reinsurance, voluntary pension funding, and auxiliary to financial services. It also includes the activities of holding assets, such as holding companies, trusts, funds, and similar financial entities.

The activity recorded a growth rate of 19.5 percent in the fourth quarter of 2025 as compared to 12.1 percent in the same quarter of 2024. The growth was attributed to an increase of 25.7 percent in the level of deposits from TZS 40.1 trillion in the fourth quarter of 2024 to TZS 50.4 trillion in the same period in 2025. Similarly, an increase of 23.9 percent in the level of lending from TZS 37.3 trillion in the fourth quarter of 2024 to TZS 46.2 trillion in the corresponding period of 2025.

Figure 8: Stock of Loans and Deposits, Fourth Quarter, 2021 – 2025

Source: Bank of Tanzania, 2025

2.12 Real Estate

This activity includes selling or buying real estate, renting real estate, and providing other real estate services such as appraising real estate. Activities in this industry may be carried out on own or leased property and may be done on a fee or contract basis. Also included is the building of structures, combined with maintaining ownership or leasing of such structures.

The activity increased by 4.4 percent in the fourth quarter of 2025, compared to 4.3 percent observed in the corresponding quarter in 2024. The growth was attributed to an increase in demand for accommodation services, especially in urban areas.

2.13 Professional, Scientific and Technical Activities

This activity includes specialized professional, scientific, and technical activities. The activity requires a high degree of training, as well as making specialized knowledge and skills available to users. The activity includes legal and accounting activities; activities of head offices; management consultancy; architectural and engineering; technical testing and analysis; scientific research and development; advertising and market research; other professional, scientific and technical activities; as well as veterinary activities.

The activity expanded by 5.3 percent in the fourth quarter of 2025 compared with 5.6 percent registered in the corresponding period in 2024. The expansion was attributed to an increase in professional, scientific and technical services during the reference period.

2.14 Administrative and Support Services

The activity includes a variety of services that support general business operations. Administrative and support services involve rental and leasing; employment; travel agency;

tour operator; reservation services and related activities; security and investigation; as well as services to buildings and landscape.

The activity recorded a growth of 3.4 percent in the fourth quarter of 2025 compared with 8.3 percent observed in the similar quarter in 2024. The expansion of travel agents and tour operators' services contributed to the growth of this economic activity.

2.15 Public Administration and Defense

The activity includes the enactment and judicial interpretation of laws, legislative activities, taxation, national defense, public order and safety, immigration services, foreign affairs, and the administration of government programmes. This activity also includes compulsory social security services.

The public administration and defense recorded a growth of 7.5 percent in the fourth quarter of 2025 compared with 8.9 percent observed in the similar quarter in 2024. The growth was attributed to an increase in Government salaries, arrears, and other government expenditure for maintaining peace and order, as well as the provision of social services.

2.16 Education

This activity includes education at any level or for any profession, oral or written, as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at different levels, as well as adult education, literacy programs, etc. The activity includes public as well as private education.

Education activity increased to 5.0 percent during the period of October to December 2025, compared to 6.5 percent observed in the similar quarter in 2024. The growth was attributed to an increase in the number of students enrolled at all levels of education in both public and private institutions.

2.17 Human Health and Social Work

The activity includes the provision of health and social services. It includes a wide range of activities, including health care provided by trained medical professionals in hospitals and other facilities; other residential care activities that still involve a degree of health care; and social work activities without any involvement of health care professionals.

Human health and social work activity recorded a growth rate of 12.0 percent in the fourth quarter of 2025 compared to a growth rate of 11.1 percent registered in the same quarter in 2024. The growth was attributed to a continued improvement in the provision of better health services at all levels.

2.18 Arts, Entertainment and Recreation

This activity includes a wide range of activities with the objective of meeting varied cultural, entertainment, and recreational interests of the public, including live performances, operation of museum sites, gambling, sports, and recreational activities.

In the fourth quarter of 2025, the activity recorded a growth rate of 5.8 percent, compared with a growth rate of 15.1 percent registered in the corresponding quarter of 2024. The growth of the activity was attributed to a continued increase in arts and entertainment activities.

2.19 Other Services Activities

This industry includes the activities of membership organizations; repair of computers and personal and household goods; and a variety of personal services not covered elsewhere in the classification. It also includes Activities of Households as Employers.

The activity recorded a growth rate of 6.2 percent in the fourth quarter of 2025 compared with 5.1 percent in the similar quarter in 2024. The growth of the activity was attributed to an increase in urban population and personal service activities.

3.0 Conclusion

During the fourth quarter of 2025, GDP at constant prices increased by 5.7 percent, from 5.4 percent recorded in the similar period in 2024. Economic activities that recorded significant growth included: Financial and Insurance (19.5 percent); Information and Communication (12.6 percent); Electricity (12.2 percent); Health (12.0 percent); Public administration & Defence (7.5 percent); and Mining and Quarrying (7.5 percent).
