Preface

Gross Domestic Product (GDP) compilation in the United Republic of Tanzania is consistent with the System of National Accounts 2008 (2008 SNA) and the International Standard of Industrial Classification Revision 4 (ISIC Rev 4), which are used to classify all economic activities. The use of internationally agreed standards makes it possible to compare findings from the United Republic of Tanzania with those from other countries' Quarterly Gross Domestic Product (QGDP).

The findings in this report facilitate frequent and appropriate policy interventions using available reliable and timely information on recent short-term economic developments. The calendar year is structured as follows: First quarter—January to March; Second quarter—April to June; Third quarter—July to September; and Fourth quarter—October to December. The sources of information include administrative data covering all economic activities undertaken during the reference period.

The first QGDP report presents the total value of goods and services by type of economic activity at current prices and at constant 2019 prices. Moreover, other items presented are shares to GDP and growth rates by economic activity, presented as percentages.

It is our expectation that this report will serve as a valuable reference for planning and policy making at all level. The National Bureau of Statistics and Office of the Chief Government Statistician are committed to continuing this partnership to improve our statistical system and the availability of essential data. This work is vital for accurately tracking economic progress and national development.

Dr. Amina Msengwa

Zanzibar

1.0. Introduction

The Quarterly Gross Domestic Product (QGDP), one of the economic indicators that provides detailed information on the performance of all economic activities within a country, The QGDP facilitates frequent and appropriate policy interventions by providing reliable and timely reports on recent short-term economic developments.

1.1. World Economy

According to the April 2026 World Economic Outlook (WEO) report published by the International Monetary Fund (IMF), the baseline scenario which assumes that ongoing geopolitical conflicts and wars remain short-lived or are largely contained projects global economic growth of 3.1 percent in 2026. This represents a downward revision of 0.2 percentage points from the 3.3 percent growth forecast presented in the January 2026 edition. In addition, global headline inflation is projected to increase from 4.1 percent in 2025 to 4.4 percent in 2026. However, continued attacks on critical energy infrastructure and the possibility of a prolonged closure of the Strait of Hormuz could heighten downside risks to the global economic outlook. Such developments may lead to higher energy prices, stronger inflationary pressures, tighter financial conditions, and ultimately a slowdown in global economic growth.

1.2. Sub-Saharan Africa

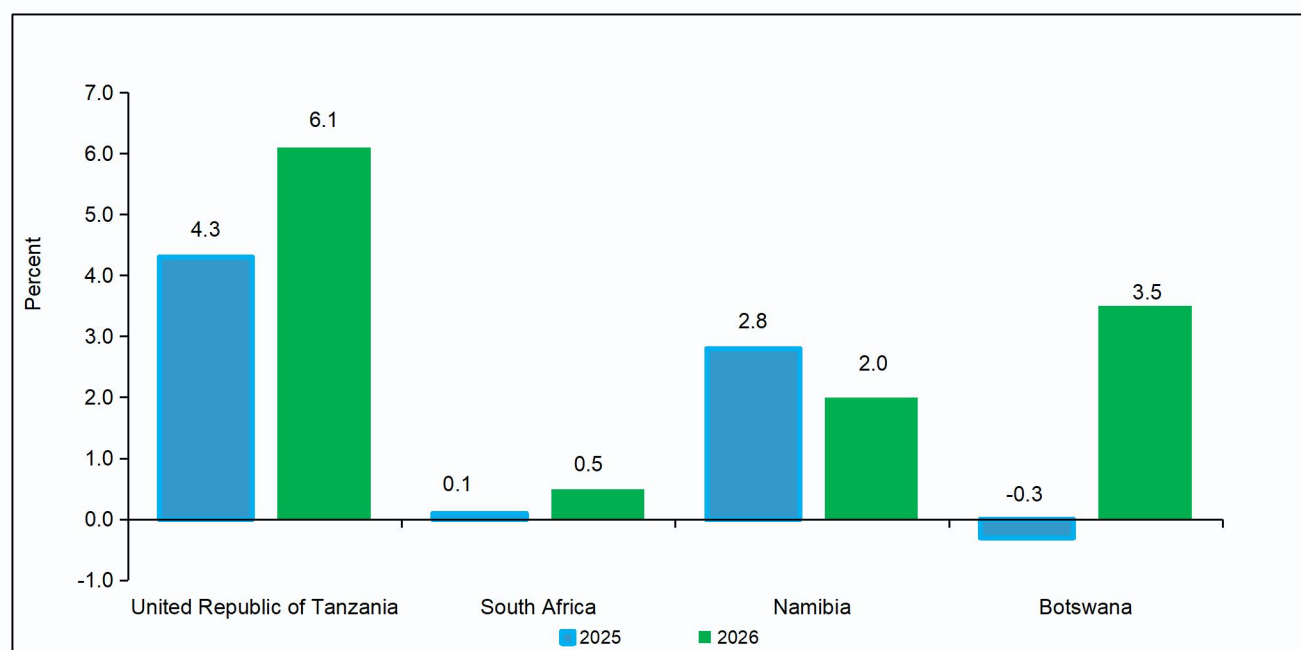

According to the April 2026 WEO report, economic growth in Sub-Sahara countries is projected to grow at 4.3 percent in 2026, compared with 4.6 percent projected in the January 2026 WEO report, representing a downward revision of 0.3 percentage points. South Africa's economy is projected to grow by 1.0 percent in 2026 compared with 1.4 percent estimated in the January 2026 WEO report. Meanwhile, the April 2026 WEO report indicates that Nigeria's economic growth is projected at 4.1 percent compared to 4.4 percent estimated in the January 2026 WEO report.

1.3. Southern Africa Development Community

Assessment of economic growth of countries in the Southern African Development Community (SADC) for the period January to March 2026 indicated that, South Africa's economy grew by 0.5 percent compared to 0.1 percent during the corresponding period in 2025. Namibia's economy increased by 2.0 percent in the first quarter of 2026 compared with 2.8 percent observed in the corresponding period in 2025. Botswana's economy increased by 3.5 percent in the first quarter of 2026 compared with 0.3 percent observed in the corresponding period in 2025. The economy of the United

Republic of Tanzania grew to 6.1 percent in the first quarter of 2026 compared with a growth rate of 4.3 percent recorded during the same period in 2025. Furthermore, the trend of economic growth for other member countries of the Southern African Development Community for the period January to March 2026 has not yet been published on their websites by the respective national statistics offices.

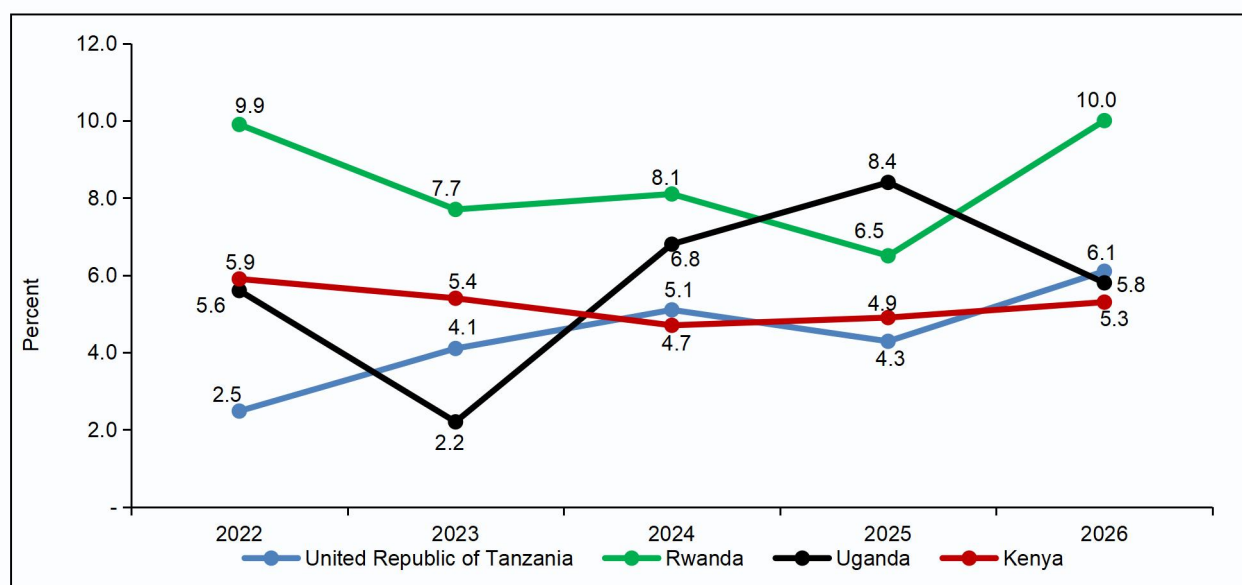

Figure 1: First Quarter GDP Growth Rates for Selected SADC Countries in 2025 and 2026

Source: Websites of Respective National Statistical Offices

1.4. East African Community

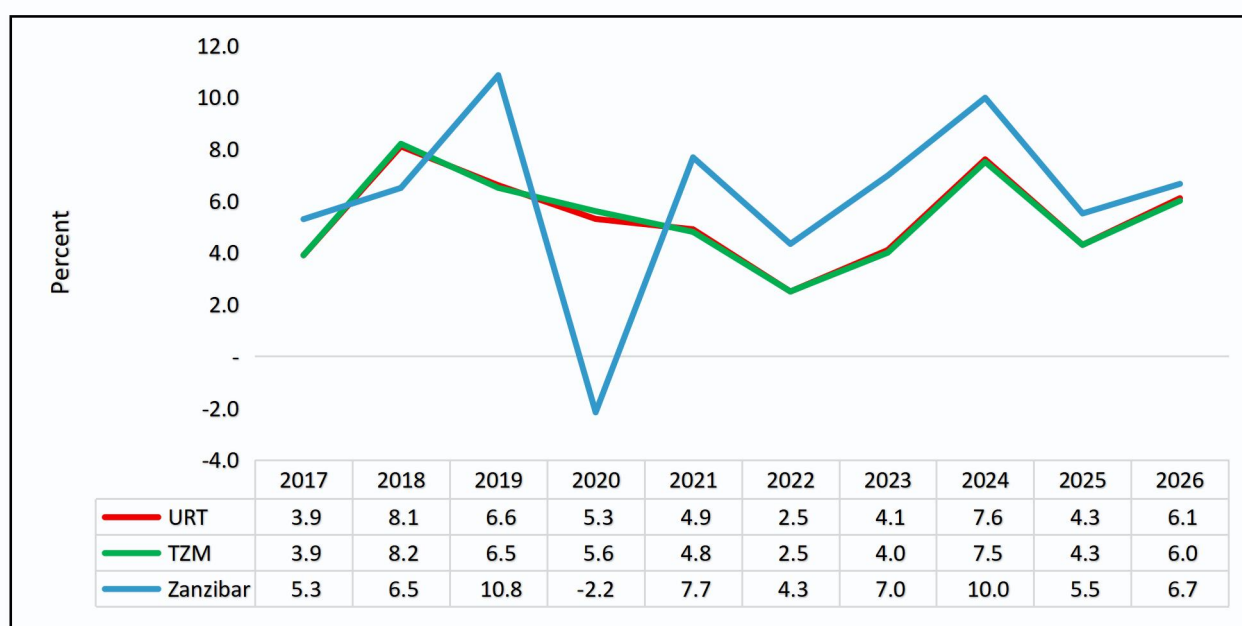

The East African Community partner States that have published reports on economic performance during the first quarter of 2026 indicate a sustained strengthening of positive economic growth. During the period under review, the economic growth rates of Rwanda increased to 10.0 percent compared with 6.5 percent during the same period in 2025. The economy of Uganda grew by 5.8 percent compared with a growth rate of 8.4 percent recorded during the same period in 2025. The economic growth rates of Kenya increased to 5.3 percent compared with a growth rate of 4.9 percent recorded during the same period in 2025. The economy of the United Republic of Tanzania grew by 6.1 percent compared with a growth rate of 4.3 percent recorded during the same period in 2025. Reports on economic performance for the remaining East Africa Community Partner States for the first quarter of 2026 have not yet been published on the websites of the respective National Statistical Offices (**Figure 2**)

Figure 2: First Quarter GDP Growth Rates for Selected EAC Countries, 2022 – 2026.

Source: National Statistical Offices, 2026

1.5 The United Republic of Tanzania

The economy of the United Republic of Tanzania continued to expand during the first quarter of 2026, with positive growth recorded across the United Republic of Tanzania, Tanzania Mainland, and Zanzibar. During the reference quarter, the economy of the URT grew by 6.1 percent, compared with 4.3 percent recorded in the same quarter of 2025. The first-quarter GDP estimates for 2026 indicate a significant difference between the growth rates of the URT and Mainland Tanzania (**Figure 3**).

Figure 3: First Quarter GDP Growth Rates for the URT, Mainland Tanzania and Zanzibar, 2017 – 2026

1.5.1 Compilation of GDP in the United Republic of Tanzania

The compilation of GDP for the period January–March 2026 used data collected from all economic activities conducted in the country, classified according to ISIC Rev. 4. The quarterly GDP¹ estimates for the URT were obtained by aggregating QGDP for Mainland Tanzania and Zanzibar.

1.5.2 First Quarter GDP 2026

During the period under review, Gross Domestic Product of the URT at current market prices increased to TZS 62.7 trillion, from TZS 55.4 trillion recorded in the similar quarter in 2025. In the same reference period, GDP at constant 2019 prices increased to TZS 47.6 trillion from TZS 44.9 trillion registered in the corresponding period in 2025, equivalent to growth of 6.1 percent (**Table 1**)

Table 1: Gross Domestic Product (TZS Trillion), First Quarter 2022-2026

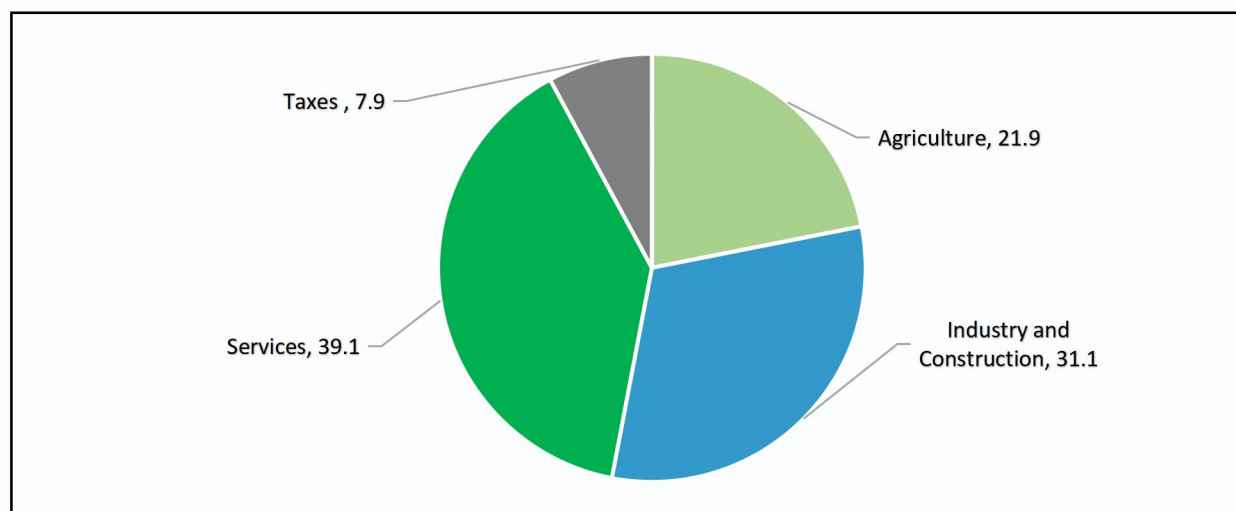

Year	First quarter GDP at Current Market Prices			First quarter GDP at Constant 2019 Market Prices		
	URT	Mainland Tanzania	Zanzibar	URT	Mainland Tanzania	Zanzibar
2022	43.5	41.9	1.6	38.4	37.0	1.4
2023	46.4	44.6	1.7	40.0	38.5	1.5
2024	50.8	48.9	1.9	43.0	41.4	1.7
2025	55.4	53.2	2.2	44.9	43.2	1.8
2026	62.7	60.4	2.3	47.6	45.8	1.9

Source: NBS and OCGS, 2026

1.5.3 Share to GDP by Broad Economic Activities

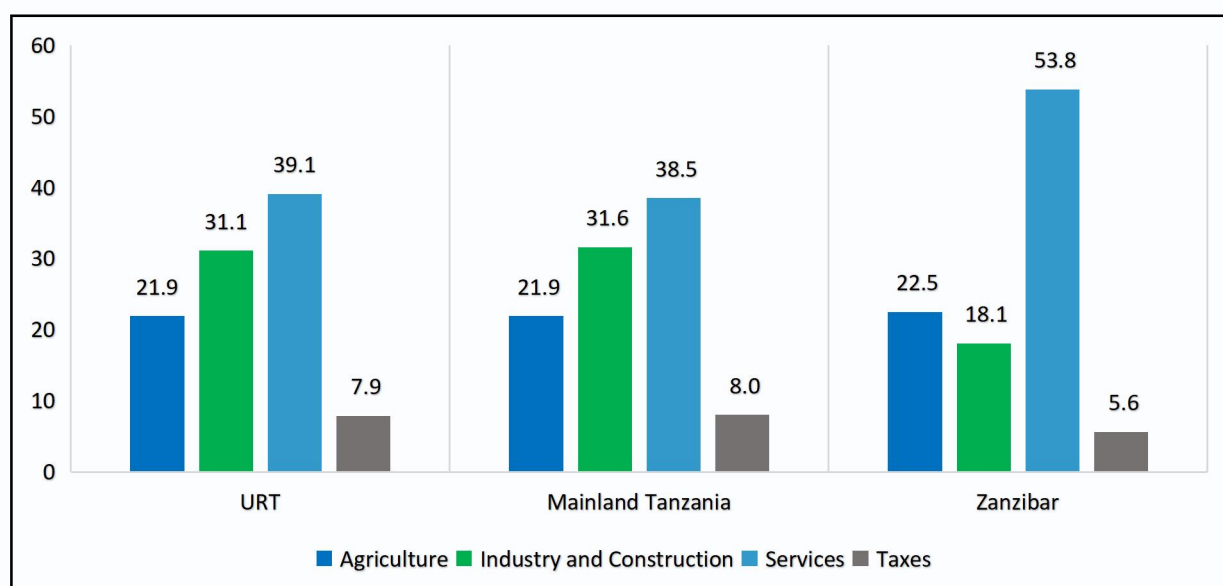

Analysis of shares by broad economic activities revealed that service economic activities accounted for the largest share of 39.1 percent of the URT first-quarter GDP, followed by Industry and Construction Activities (31.1 percent) and Agriculture, Forestry and Fishing Activities (21.9 percent). The shares to GDP were compiled based on GDP at current market prices

¹ Adding Mainland and Zanzibar GDP resulted in a minor discrepancy due to unavailable data on intratrade between the two parties

Figure 4: Share to First Quarter GDP of the URT by Broad Economic Activities at Current Prices 2026

Source: NBS and OCGS, 2026

The size of the economy and production patterns of Mainland Tanzania and Zanzibar differ significantly. During the quarter under review, the share percentage of agriculture to GDP (21.9 percent) was recorded for both the URT and Mainland Tanzania. Conversely, a different pattern is observed in Industry and construction activities which accounted for substantial shares to quarterly GDP in Mainland Tanzania (34.3 percent) relative to Zanzibar (18.1 percent) during the reference quarter. However, the service industry constituted the Zanzibar's comparative advantage contributing 53.8 percent to GDP compared to 38.5 percent registered in Mainland Tanzania

Figure 5: Share to first quarter GDP by Broad Economic Activities, URT, Mainland Tanzania, Zanzibar, 2026

1.5.4 Share to GDP by Economic Activities

Based on the first-quarter GDP estimates of individual URT, Mainland Tanzania and Zanzibar, agricultural activities recorded the highest share to GDP for both URT and Mainland Tanzania, accounting for 21.9 percent each, while Zanzibar recorded 22.5 percent (**Annexes 4, 8, and 10**). Economic activities that registered the smallest shares to GDP were electricity generation, which contributed 0.2 percent in both the URT and Mainland Tanzania. In Zanzibar, arts, entertainment, and recreation activities recorded the smallest share, contributing 0.1 percent to first-quarter GDP.

Further analysis of URT GDP indicates a significant share differential among the three economic territories, with Mainland Tanzania accounting for 96.3 percent of total URT GDP during the quarter under review. For all economic activities, shares to URT GDP is higher in Mainland Tanzania than Zanzibar (**Table 2**)

Table 2: First-Quarter Shares to URT GDP by Economic Activity: Mainland Tanzania and Zanzibar, 2026

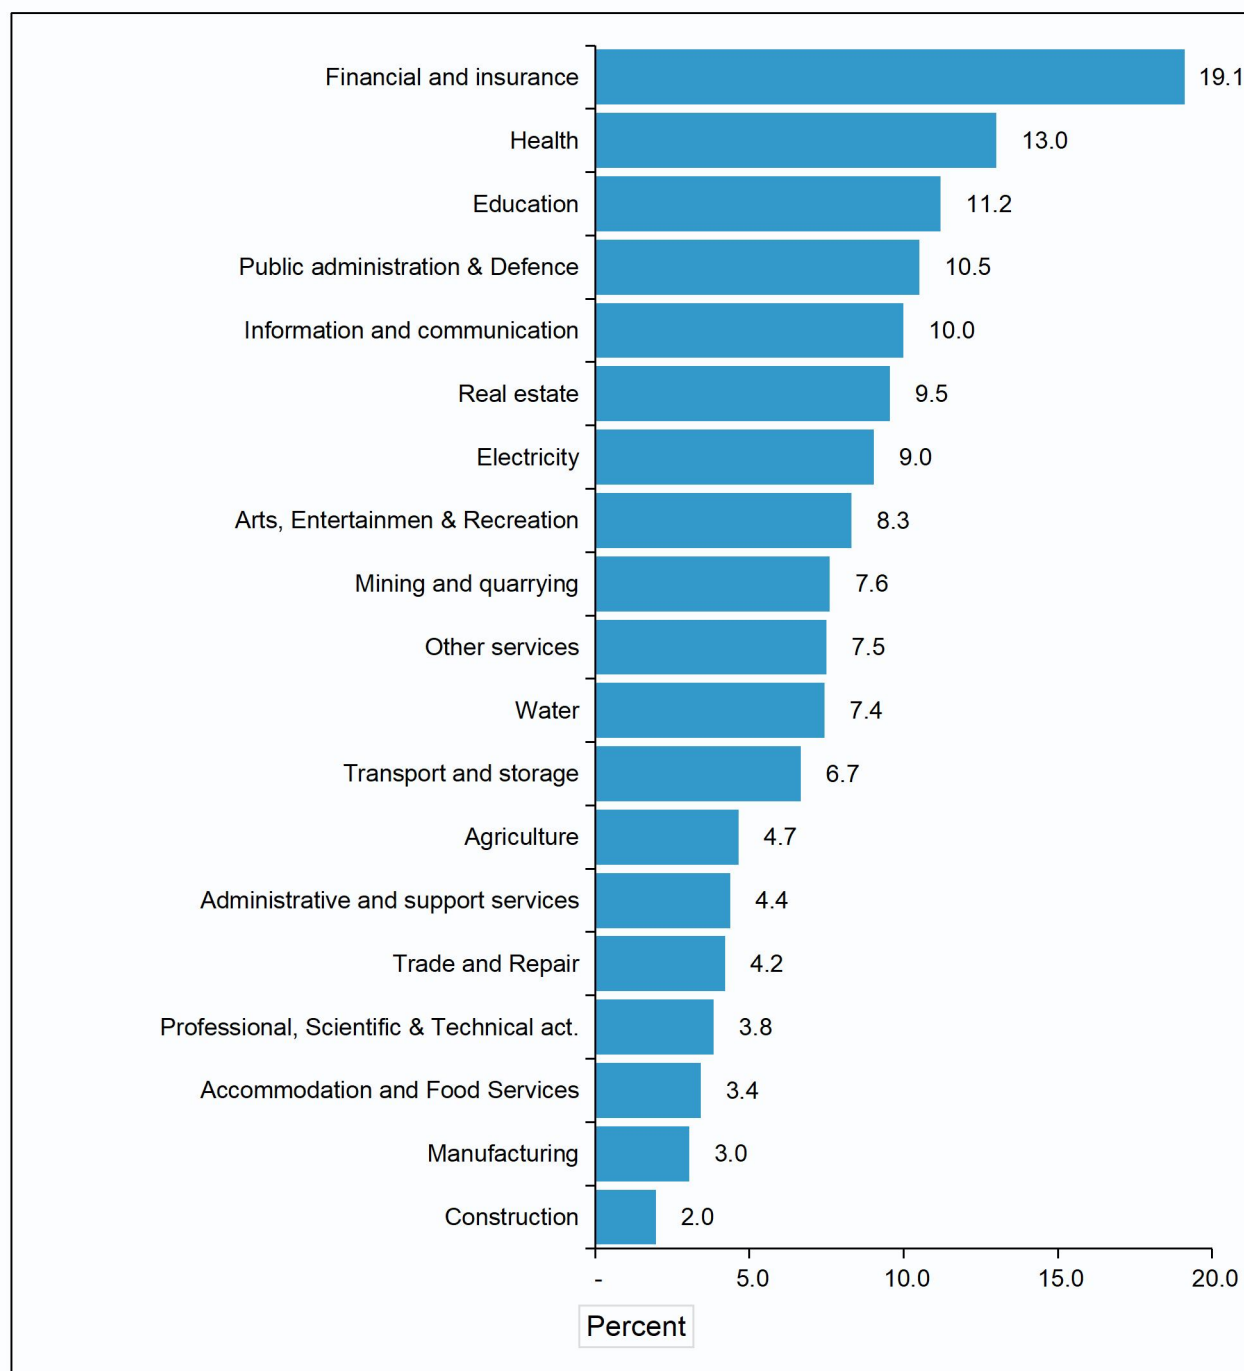

Economic Activity	URT	TZM	Zanzibar
Agriculture	21.94	21.1	0.84

1.5.5 First-Quarter GDP Growth rate of URT by Economic Activities

Overall, GDP at constant 2019 prices increased by 6.1 percent in the first quarter of 2026 compared to 4.3 percent growth recorded in the the same quarter of 2025. Economic activities that recorded significant growth rates include Financial and Insurance (19.1 percent); Health (13.0 percent); Education (11.2 percent); Public administration & Defence (10.5 percent); Information and Communication (10.0 percent); Real estate (9.5 percent); and Electricity (9.0 percent) (**Figure 6**).

Figure 6: First Quarter GDP Growth Rates of the URT by Economic Activity, 2026

Source: NBS and OCGS, 2026

The growth rate in Mainland Tanzania for the period January – Machi 2026 was strongly supported by service industries including Finance and Insurance, while the Zanzibar's growth is driven by tourism related activities including accommodation and food services and arts and entertainment. The growth pattern in Mainland Tanzania mostly followed that of the URT, with most economic activities recording very similar growth rates. The highest growth in the URT is observed in financial and insurance services (19.1%), followed by health (13.0%). Low growths were recorded in construction (2.0%), manufacturing (3.0%), and accommodation and food services (3.4%).

Zanzibar's economy indicated a different sectoral growth pattern in the first quarter of 2026, with higher growths in arts, entertainment and recreation activities (10.8%) and accommodation and food services (10.2%) (**Table 3**)

Table 3: First Quarter GDP Growth Rates by Economic Activities, URT, Mainland Tanzania and Zanzibar, 2026

Economic Activity	URT	TZM	ZNZ
Agriculture	4.7	4.6	6.2
Mining and quarrying	7.6	7.6	8.0
Manufacturing	3.0	3.0	5.4
Electricity	9.0	9.4	4.7

Arts, entertainment and recreation	8.3	8.3	10.8
Other services	7.5	6.8	9.3

Source: NBS and OCGS, 2026

1.5.6 Contribution to Growth

During the period January and March 2026, all economic activities contributed to the 6.1 percent overall GDP growth of the URT, although their contributions varied significantly. Agricultural activities contributed the largest at 16.7 percent, followed by Financial and Insurance services (16.5 percent), Transport and Storage (9.3 percent),

Public Administration and Defence (8.8 percent), Mining and Quarrying (7.2 percent), Trade and Repair (5.7 percent), and Education services (5.4 percent)

2.0. Sectoral Performance

This section provides highlights on sectoral performance for economic activities carried out in the URT and their corresponding growth rates in the first quarter of 2026. Activities outlined in the sub-sections include Agriculture (crop production, livestock, forestry, and fishing), mining and quarrying, manufacturing, electricity, water supply, and construction. In addition, the section outlines the performance of service sectors including trade and repairs; transportation and storage; accommodation and food services; information and communication; financial and insurance services; real estate; professional, technical, and scientific services; public administration and defense related services as well as education, human health, arts, entertainment and recreation; and other services activities.

2.1. Agriculture, Forestry and Fishing

This sector includes the exploitation of vegetables and animal natural resources that comprise growing crops, raising and breeding animals, harvesting timber and other plants, animals, or animal products from a farm or their natural habitats. During the period January and March 2026, the Agriculture sector in the URT increased by 4.7 percent, slightly lower than the 4.8 percent recorded in the same period in 2025. The sector recorded faster growth in Zanzibar (6.2 percent) than Mainland Tanzania (4.6 percent)

2.1.1. Crops

Major crops covered include maize, paddy, sorghum/millet, other cereals, cassava, round potatoes, sweet potatoes, beans and other pulses, dried oilseeds, other vegetables, bananas, other fruits, cashew nuts, coffee, cotton, tea, tobacco, and other food and cash crops such as cloves.

The crop sub-activity expanded by 3.1 percent in the first quarter of 2026 compared to 3.6 percent observed in the corresponding quarter in 2025. The growth was attributed to increased crop production, which benefited from the use of enhanced technology and quality agricultural inputs, as well as the continued improvements in extension service

2.1.2. Livestock

The activity covers livestock rearing activities, including improved and indigenous cattle; goats; sheep; donkeys; horses; pigs; rabbits; indigenous and commercial chicken; and other poultry.

During the period January to March 2026, livestock activity recorded a growth rate of 5.2 percent compared with 4.9 percent observed during the corresponding period in 2025. The demand for livestock-based products, as well as increased awareness of food nutrition, is attributed to this growth.

2.1.3. Forestry and Logging

Forestry and Logging activity covers the production of timber, charcoal, fuel wood, and logs, twigs, faggots (bundles of branches), and non-wood forest products. Forestry activity expanded by 6.8 percent in the first quarter of 2026 slightly lower than 7.5 percent observed in the corresponding quarter of 2025. This performance was largely attributed to the management of forest products and government interventions aimed at promoting sustainable harvesting and management of forest products.

2.1.4. Fishing

Fishing activity covers the harvest of fishery resources from marine or freshwater environments. Fishing activity recorded a growth rate of 6.1 percent in the first quarter of 2026 compared with 6.4 percent registered in the corresponding quarter in 2025. The growth was attributed to Government efforts to ensure sustainable fish catch and fish products.

2.2. Mining and Quarrying

Mining and quarrying include the activities of extracting minerals that occur naturally as solids (coal and ores), liquids (petroleum), or gases (natural gas). Extraction can be done from underground, on the surface, mining, or well operation. It also includes supplementary activities aimed at preparing the crude materials for marketing, for example, crushing and grinding; cleaning, drying, sorting, and concentrating ores; liquefaction of natural gas, and agglomeration of solid fuels. The units located nearby often accomplish the operations.

Mining and quarrying activity is divided into four industries, which are:

- i. Mining coal, lignite, and extraction of peat.
- ii. Crude petroleum and natural gas.
- iii. Mining of metal ores; and
- iv. Other mining and quarrying

The activity grew by 7.6 percent in the first quarter of 2026 compared to the 15.5 percent recorded during the same quarter in 2025. The changes were due to the increase in production for some minerals, including Gold, Salt, Copper, Limestone, Stone and Bauxite (Table 4) from Mainland Tanzania.

Table 4: Production of Selected Minerals, Mainland Tanzania, First Quarter of 2025 and 2026

Type of Mineral	Unit	First Quarter	
		2025	2026
Gold	Kg	15,797	16,444
Salt	Tons	22,794	37,275
Copper	Tons	1,713	4,565
Limestone	Tons	3,008,459	3,102,797
Stone	Tons	315,513	443,257
Bauxite	Tons	4,556	12,061

Source: Ministry of Minerals, 2026

2.3. Manufacturing

Manufacturing activity involves physical or chemical transformation of materials, substances, or components into final or semi-processed goods. The materials include products of agriculture, forestry, fishing, mining, and quarrying, as well as products of other manufacturing activities.

The activity recorded a growth rate of 3.0 percent (3.0% Mainland Tanzania, 5.4 % Zanzibar) in the first quarter of 2026 compared to 1.0 percent registered in the corresponding quarter in 2025. The growth was attributed to an increase in the production of manufactured goods.

2.4. Electricity, Gas, Steam and Air Conditioning Supply

The activity covers the provision of electric power and natural gas through permanent infrastructure (network) of lines, mains, and pipes. Specifically, the activity involves the generation of electricity mainly from hydro, thermal, and gas sources. The activity also

includes the distribution of natural gas to consumers through pipeline networks. The primary sources of electricity generation data is the Tanzania Electric Supply Company Limited (TANESCO), while the main source of natural gas production data is the Tanzania Petroleum Development Corporation (TPDC).

The growth of electric and natural gas generation activities depends on the amount produced and distributed to customers. During the first quarter of 2026, electric generation and natural gas activities increased by 9.0 percent compared to 13.0 percent in the similar quarter of 2025. The sector growth is faster in Mainland Tanzania (9.4%) than in Zanzibar (4.7%). The growth was largely attributed to electricity generation from the Kishapu solar power generation plant in Mainland Tanzania.

2.5. Water Supply and Sewerage

The activity includes the collection and purification of water for water supply purposes, desalting sea water to produce water as the principal product of interest, and the collection of water directly from wells for use by water supply companies or used on their own account in agriculture or households. It also includes water distribution and the collection of wastewater activities.

The indicator for the growth of water supply activity is the quantity of water produced. During the reference period, the quantity of water produced increased to 107.0 million cubic meters from 98.9 million cubic meters recorded in the similar quarter in 2025. The activity grew at a rate of 7.4 percent in the first quarter of 2026 from 4.3 percent recorded in the corresponding quarter in 2025 (**Figure 7**).

2.6. Construction

This activity includes general construction and specialized construction activities for buildings and civil engineering works. It includes new work, repair, additions, and alterations, the erection of prefabricated buildings or structures on the site, and construction of a temporary nature.

General construction deals with the construction of entire dwellings, office buildings, stores, and other public and utility buildings, farm buildings, etc. It also includes the construction of civil engineering works such as motorways, streets, bridges, tunnels,

railways, airfields, harbors and water projects, irrigation systems, sewerage systems, industrial facilities, pipelines, electric lines, and sports facilities.

During the first quarter of 2026, construction activity recorded a growth rate of 2.0 percent compared with a negative growth of 0.7 percent in the corresponding quarter of 2025. Growth of construction activities is assessed based on domestically produced goods as well as imported materials used in construction activities. The growth was attributed to an increase in local production of construction materials, including cement and iron steels.

2.7. Wholesale and Retail Trade; Repair of Motor Vehicles, Motorcycles and Personal and Household Goods

The activity includes wholesale and retail sales (sale without transformation) of any type of goods as well as rendering services incidental to the sale of merchandise. It also includes repair of motor vehicles and the installation and repair of personal and household goods. The activity involves buying and selling of goods.

During the first quarter of 2026, the activity recorded a growth rate of 4.2 percent, slightly lower than the 4.7 percent in the first quarter of 2025. The growth was due to an increase in goods traded for agriculture, livestock, fishing, mining and quarrying, manufactured and imported goods.

2.8. Transport and Storage

This activity includes the provision of passenger or freight transport, whether scheduled or not, by rail, pipeline, road, water, or air, and associated activities such as cargo handling, storage, etc. The activity also includes renting transport equipment with a driver or operator, and postal and courier activities. The activity expanded by 6.7 in the first quarter of 2026 compared to 8.2 percent registered in the similar quarter in 2025. The growth was attributed to an increase in cargo tonnage and the number of passengers transported by road and Standard Gauge Railway transport services.

2.9. Accommodation and Food Services

This activity includes the provision of short-stay accommodation for visitors and other travelers, as well as the provision of complete meals and drinks fit for immediate

consumption. The amount and type of supplementary services provided within this section can vary widely.

In the first quarter of 2026, accommodation and food services recorded a growth rate of 3.4 percent, compared with a negative growth of 2.7 percent observed in the corresponding quarter in 2025. The growth was attributed to a increase in the number of beds occupied.

2.10. Information and Communication

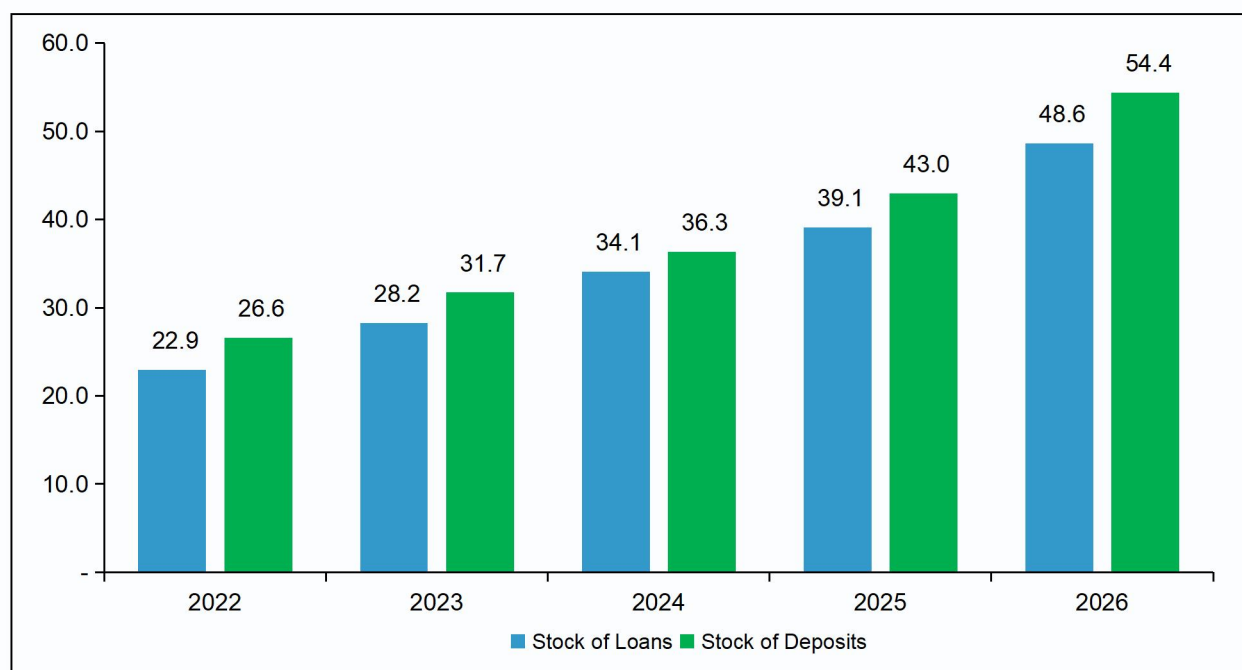

The activity covers publishing activities, motion picture, video, and television programming production, sound recording and music publishing, programming and broadcasting activities, e.g., radio and television broadcasting, telecommunications, computer programming, consultancy and related activities, and information service activities, e.g., data processing and news agencies.

The activity recorded a growth rate of 10.0 percent in the first quarter of 2026 compared to 9.4 percent in the same quarter of 2025. The growth rate was attributed to an increase in the number of voice traffic per minute; the number of short message services traffic (SMS); the average number of mobile money subscribers; and the expansion of broadcasting and internet services in the country.

2.11. Financial and Insurance Services

The activity covers financial services, insurance and reinsurance, voluntary pension funding, and auxiliary to financial services. It also includes the activities of holding assets, such as holding companies, trusts, funds, and similar financial entities.

The activity recorded a growth rate of 19.1 percent in the first quarter of 2026, as compared to 11.7 percent in the same quarter of 2025. The growth was attributed to an increase of 26.5 percent in the level of deposits in the URT from TZS 43.0 trillion in the first quarter of 2025 to TZS 54.4 trillion in the same period in 2026. Similarly, an increase of 24.3 percent in the level of lending from TZS 39.1 trillion in the first quarter of 2025 to TZS 48.6 trillion in the corresponding period of 2026.

2.12. Real Estate

This activity includes selling or buying real estate, renting real estate, and providing other real estate services such as appraising real estate. Activities in this industry may be carried out on own or leased property and may be done on a fee or contract basis. Also included is the building of structures, combined with maintaining ownership or leasing of such structures.

The activity increased by 9.5 percent in the first quarter of 2026 compared to 8.3 percent observed in the corresponding quarter in 2025. The growth was attributed to an increase in demand for accommodation services, especially in urban areas.

2.13. Professional, Scientific and Technical Activities

This activity includes specialized professional, scientific, and technical activities. The activity requires a high degree of training, as well as making specialized knowledge and skills available to users. The activity includes legal and accounting activities; activities of head offices; management consultancy; architectural and engineering; technical testing and analysis; scientific research and development; advertising and market research; other professional, scientific, and technical activities; as well as veterinary activities.

The activity expanded by 3.8 percent in the first quarter of 2026, slightly lower than 10.8 percent registered in the corresponding period in 2025. The expansion was attributed to an increase in professional, scientific, and technical services during the reference period.

2.14. Administrative and Support Services

The activity includes a variety of services that support general business operations. Administrative and support services involve rental and leasing; employment; travel agency; tour operator; reservation services and related activities; security and investigation; as well as services to buildings and landscape.

The activity recorded a growth of 4.4 percent in the first quarter of 2026 compared with 7.0 percent observed in the similar quarter in 2025. The expansion of travel agents and tour operators' services contributed to the growth of this economic activity.

2.15. Public Administration and Defense

The activity includes the enactment and judicial interpretation of laws, legislative activities, taxation, national defense, public order and safety, immigration services, foreign affairs, and the administration of government programmes. This activity also includes compulsory social security services.

The public administration and defense recorded a growth of 10.5 percent in the first quarter of 2026 compared with 9.3 percent observed in the similar quarter in 2025. The growth was attributed to an increase in Government salaries, arrears, and other government expenditure for maintaining peace and order, as well as the provision of social services.

2.16. Education

This activity includes education at any level or for any profession, oral or written, as well as by radio and television or other means of communication. It includes education by the different institutions in the regular school system at different levels, as well as adult education, literacy programs, etc. The activity includes public as well as private education.

Education activity increased to 11.2 percent in the first quarter of 2026, compared to 9.1 percent observed in the similar quarter in 2025. The growth was attributed to an increase in the number of students enrolled at all levels of education in both public and private institutions.

2.17. Human Health and Social Work

The activity includes the provision of health and social services. It includes a wide range of activities, including health care provided by trained medical professionals in hospitals and other facilities; other residential care activities that still involve a degree of health care; and social work activities without any involvement of health care professionals.

Human health and social work activity recorded a growth rate of 13.0 percent in the first quarter of 2026 compared to a growth rate of 8.0 percent registered in the same quarter in 2025. The growth was attributed to a continued improvement in the provision of better health services at all levels.

2.18. Arts, Entertainment and Recreation

This activity includes a wide range of activities with the objective of meeting varied cultural, entertainment, and recreational interests of the public, including live performances, operation of museum sites, gambling, sports, and recreational activities.

In the first quarter of 2026, the activity recorded a growth rate of 8.3 percent, compared with a growth rate of 13.6 percent registered in the corresponding quarter of 2025. The growth of the activity was attributed to a continued increase in arts and entertainment activities.

2.19. Other Services Activities

This industry includes the activities of membership organizations; repair of computers and personal and household goods; and a variety of personal services not covered elsewhere in the classification. It also includes Activities of Households as Employers.

The activity recorded a growth rate of 7.5 percent in the first quarter of 2026 compared with 6.1 percent in the similar quarter in 2025. The growth of the activity was attributed to an increase in the urban population and personal service activities.

3.0. Conclusion

During the first quarter of 2026, GDP at constant prices increased by 6.1 percent from 4.3 percent recorded in the similar period in 2025. Economic activities that recorded significant growth include: Financial and Insurance (19.1 percent); Health (13.0 percent); Education (11.2 percent); Public administration & Defence (10.5 percent); Information and Communication (10.0 percent); Real estate (9.5 percent); and Electricity (9.0 percent).
