INTRODUCTION AND CONSENT

Hello. My name is _____. I am working with National Bureau of Statistics / Office of the Chief Government Statistician. We are conducting a survey about health and other topics all over Tanzania. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time.

In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household.

Do you have any questions?
May I begin the interview now?

101	RECORD THE TIME.	HOURS . . ☐☐ MINUTES . . ☐☐	
101A	During the interview I would like to measure your blood pressure to see if you have high blood pressure. If you agree, we will take a measurement three times during the interview. We will use an automated digital device operated by 6 AA-size batteries. The procedure is harmless, but you may feel discomfort while the measuring cuff squeezes your arm. If high blood pressure is not treated, it may eventually cause serious damage to the heart and blood vessels in the brain. You will receive the results of the blood pressure measurement at the end of our interview, with an explanation of the numbers. If your blood pressure is high, we will suggest that you consult a health facility or doctor since we cannot provide any further testing or treatment during the survey. Do you have any questions about the blood pressure measurement so far? If you have any questions about the procedure at any time, please ask me. You can say yes or no to having your blood pressure measured. You can also decide at anytime during the interview not to have your blood pressure measured. Do you agree to take your blood pressure measurement at this time?

INTRODUCTION AND CONSENT	Hello. My name is _____. I am working with National Bureau of Statistics / Office of the Chief Government Statistician. We are conducting a survey about health and other topics all over Tanzania. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household. Do you have any questions? May I begin the interview now?		

	ENGLISH	KISWAHILI	LANGUAGE 3
101A	During the interview I would like to measure your blood pressure to see if you have high blood pressure. If you agree, we will take a measurement three times during the interview. We will use an automated digital device operated by 6 AA-size batteries. The procedure is harmless, but you may feel discomfort while the measuring cuff squeezes your arm. If high blood pressure is not treated, it may eventually cause serious damage to the heart and blood vessels in the brain. You will receive the results of the blood pressure measurement at the end of our interview, with an explanation of the numbers. If your blood pressure is high, we will suggest that you consult a health facility or doctor since we cannot provide any further testing or treatment during the survey. Do you have any questions about the blood pressure measurement so far? If you have any questions about the procedure at any time, please ask me. You can say yes or no to having your blood pressure measured. You can also decide at anytime during the interview not to have your blood pressure measured. Do you agree to take your blood pressure measurement at this time?		
101B	Before measuring I would like to ask a few questions about things that may affect blood pressure. Have you done any of the following within the past 30 minutes:		
101Ba)	Eaten anything?		
101Bb)	Had coffee, tea, cola or other drink that has caffeine?		
101Bc)	Smoked any tobacco product?		
101Bd)	Conducted any physical activity or excercises that made you breathe harder than usual?		
101C	Now we will measure your blood pressure.		
102	What region were you born in?		
103	What country were you born in?		
104	How long have you been living continuously in (NAME OF CURRENT CITY, TOWN OR VILLAGE OF RESIDENCE)?		

	ENGLISH	KISWAHILI	LANGUAGE 3
106	In what month and year did you move here?		
107	Just before you moved here, which region did you live in?

216	When (NAME)'s mother was pregnant with (NAME), did she have any antenatal check-ups?		
217	Were you ever present during any of those antenatal check-ups?		
218	Was (NAME) born in a hospital or health facility?		
219	Did you go with (NAME's) mother to the health facility where she gave birth to (NAME)?		
301	Now I would like to talk about family planning - the various ways or methods that a couple can use to delay or avoid a pregnancy. Have you ever heard of (METHOD)?		
301-01	Female Sterilization. PROBE: Women can have an operation to avoid having any more children.		

	ENGLISH	KISWAHILI	LANGUAGE 3
301-02	Male Sterilization. PROBE: Men can have an operation to avoid having any more children.		
301-03	IUD. PROBE: Women can have a loop or coil placed inside them by a doctor or a nurse which can prevent pregnancy for one or more years.

Hello. My name is _____. I am working with National Bureau of Statistics / Office of the Chief Government Statistician. We are conducting a survey about health and other topics all over Tanzania. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household. Do you have any questions? May I begin the interview now?		

ENGLISH	LANGUAGE 4	LANGUAGE 5
During the interview I would like to measure your blood pressure to see if you have high blood pressure. If you agree, we will take a measurement three times during the interview. We will use an automated digital device operated by 6 AA-size batteries. The procedure is harmless, but you may feel discomfort while the measuring cuff squeezes your arm. If high blood pressure is not treated, it may eventually cause serious damage to the heart and blood vessels in the brain. You will receive the results of the blood pressure measurement at the end of our interview, with an explanation of the numbers. If your blood pressure is high, we will suggest that you consult a health facility or doctor since we cannot provide any further testing or treatment during the survey. Do you have any questions about the blood pressure measurement so far? If you have any questions about the procedure at any time, please ask me. You can say yes or no to having your blood pressure measured. You can also decide at anytime during the interview not to have your blood pressure measured. Do you agree to take your blood pressure measurement at this time?		
Before measuring I would like to ask a few questions about things that may affect blood pressure. Have you done any of the following within the past 30 minutes:		
Eaten anything?		
Had coffee, tea, cola or other drink that has caffeine?		
Smoked any tobacco product?		
Conducted any physical activity or excercises that made you breathe harder than usual?		
Now we will measure your blood pressure.		
What region were you born in?		
What country were you born in?		
How long have you been living continuously in (NAME OF CURRENT CITY, TOWN OR VILLAGE OF RESIDENCE)?		

ENGLISH	LANGUAGE 4	LANGUAGE 5

Hello. My name is _____. I am working with National Bureau of Statistics / Office of the Chief Government Statistician. We are conducting a survey about health and other topics all over Tanzania. The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time. In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household. Do you have any questions? May I begin the interview now?	

ENGLISH	LANGUAGE 6
During the interview I would like to measure your blood pressure to see if you have high blood pressure. If you agree, we will take a measurement three times during the interview. We will use an automated digital device operated by 6 AA-size batteries. The procedure is harmless, but you may feel discomfort while the measuring cuff squeezes your arm. If high blood pressure is not treated, it may eventually cause serious damage to the heart and blood vessels in the brain. You will receive the results of the blood pressure measurement at the end of our interview, with an explanation of the numbers. If your blood pressure is high, we will suggest that you consult a health facility or doctor since we cannot provide any further testing or treatment during the survey. Do you have any questions about the blood pressure measurement so far? If you have any questions about the procedure at any time, please ask me. You can say yes or no to having your blood pressure measured. You can also decide at anytime during the interview not to have your blood pressure measured. Do you agree to take your blood pressure measurement at this time?	
Before measuring I would like to ask a few questions about things that may affect blood pressure. Have you done any of the following within the past 30 minutes:	
Eaten anything?	
Had coffee, tea, cola or other drink that has caffeine?	
Smoked any tobacco product?	
Conducted any physical activity or excercises that made you breathe harder than usual?	
Now we will measure your blood pressure.
